

Pioneer distilleries have not gone in for any primary security issue. Bloomberg and all other databases (CMIE PROWESS) also showed that there was no security issue for past 5 years.

I looked in through annual report also. But no information was there. The company has taken all term loans. It has issued no bonds. I saw the balance sheet the equity has also not been increased.

In future the company plans to issue 17,20,000 Equity shares of Rs.10/- each at premium of Rs.9/- per share to the Promoters (i.e., preferential issue of warrants),
