

On-Line Learning Center Available www.mhhe.com/jaeger

Instructor Resources:

- **PowerPoints** with figures and lecture notes
- **Complete Solutions** password protected for instructors
- **COSMOS**-(Complete Online Solutions Manual Organization System) This tool helps you to organize, distribute and track problem sets from the book. COSMOS contains problem statements and solutions.
- **JPEG Images** will be available for creation of presentation materials
- **Pageout** is a free tool that helps you create your own website.
- **Instructor Message Board:** Allows sharing of ideas between instructors

Student Resources:

- **Study Outlines** for students include learning objectives, chapter overviews, and chapter summaries.
- **Student Solutions Manual** provides selected answers for students
- **Glossary** of key terms
- **More on Electronics in Action**—additional material on applications found in the book, including weblinks.
- **Datasheets** provide actual specifications for industry chips.
- **News Feeds** keep students up-to-date on what is going on in the world of electronics.

Also be sure to check out the Student CD-Rom that comes free with the book. The CD-Rom contains the student version of Pspice and Pspice files for circuits in the book.
