Short Answer Questions

Write the correct answer in the space provided.

1. Which type of paragraph alignment adjusts spacing between words?

2. What is the keyboard shortcut for centering text?

3. Single, 1.5, and double are examples of what type of spacing?

4. If you click  once, what happens to selected text?

5. With an outline numbered list, instead of clicking , what key can you press to achieve the same result?

6. Which keystrokes apply a double-line border automatically?

7. What is the procedure to display the Reveal Formatting task pane?

8. Which indent marker is the top triangle on the left side of the ruler?

Critical Thinking

Answer these questions on a separate page. There are no right or wrong answers. Support your answers with examples from your own experience, if possible.

1. You can use keyboard shortcuts to change paragraph alignment, or you can use the alignment buttons on the Ribbon. Which method do you prefer? Why? When might you use the other method?
2. Many people use bulleted lists and numbered lists interchangeably. Are there times when it would be more appropriate to use a bulleted list than a numbered list and vice versa? Explain your answer.

Skills Review

Exercise 5-21

Change paragraph alignment and line spacing.

1. Start a new document.
2. Change the character formatting and paragraph alignment for the first paragraph by following these steps:
 - a. Select the paragraph mark and set the font to 14-point Cambria.
 - b. Click the Center button  on the Ribbon, Home tab, Paragraph group, to center the text you are about to key.
 - c. Key the first two lines shown in Figure 5-21 in all capitals. Use a line break (press **Shift**+**Enter**) after the first line to make the two lines one paragraph.

9. Submit and close the document.

**NOTE**

If horizontal line clips are not available, use a border.

On Your Own

In these exercises you work on your own, as you would in a real-life business environment. Use the skills you’ve learned to accomplish the task—and be creative.

Exercise 5-29

Create a flyer for an event, such as a meeting or concert. Use a variety of paragraph alignment settings, line spacing, and paragraph spacing. Add shading to one or more paragraphs and a page border. Include a bulleted list. Save the document as *[your initials]5-29*. Submit the document.

Exercise 5-30

Create a set of instructions for how to make something. Use a bulleted list for the materials needed. Use a numbered list to describe the step-by-step instructions. Use borders or shading for emphasis or for paragraphs containing special notes or tips. Save the document as *[your initials]5-30* and submit it.

Exercise 5-31

Review the foreign-language characters in the Symbols dialog box (normal text). Use a foreign-language dictionary (such as an online dictionary on the Internet) to find a few foreign words you can key in a document by inserting the appropriate foreign-language characters. Include the English translations. Display the Research task pane to help you define and translate vocabulary. Save the document as *[your initials]5-31* and submit it.
