Section One

Drug Use in Modern Society 1

1 Drug Use: An Overview 2

“The Drug Problem” 2

Talking about Drug Use 2

How Did We Get Here? 6

Have Things Really Changed? 6

Drugs and Drug Use Today 7

Extent of Drug Use 7

Populations of Users 8

Trends in Drug Use 9

Correlates of Drug Use 13

Risk and Protective Factors 13

Race, Gender, and Level of Education 15

Personality Variables 16

Genetics 16

Antecedents of Drug Use 16

Motives for Drug Use 18

Summary 21

Review Questions 22

References 22

Check Yourself: Do Your Goals and Behaviors Match? 23

2 Drug Use as a Social Problem 25

Laissez-Faire 25

Toxicity 26

Categories of Toxicity 26

Drug Abuse Warning Network 27

How Dangerous Is the Drug? 29

Blood-Borne Diseases 30

Substance Dependence: What Is It? 32

Three Basic Processes 33

Changing Views of Addiction 34

Which Is More Important, Physical Dependence
or Psychological Dependence? 35

Broad Views of Substance Dependence 37

Is Dependence Caused by the Substance? 37

Is Dependence Biological? 38

Is There an “Addictive Personality”? 39

Is Dependence a Family Disorder? 40

Is Substance Dependence a Disease? 40

Crime and Violence: Does Drug Use Cause Crime? 41

Why We Try to Regulate Drugs 44

Summary 44

Review Questions 45

References 45

Check Yourself: Are You Hooked On an Activity? 46

Check Yourself: What’s Your Risk of Drug Toxicity? 47

3 Drug Policy 49

The Beginnings 50

Reformism 50

Issues Leading to Legislation 50

1906 Pure Food and Drugs Act 53

Harrison Act of 1914 54

Two Bureaus, Two Types of Regulation 54

Regulation of Pharmaceuticals 55

Purity 55

Safety 56

Effectiveness 56

Marketing a New Drug 57

Dietary Supplements 59

Controlled Substances 59

After the Harrison Act 60

Narcotic Control Act of 1956 62

Drug Abuse Control Amendments of 1965 62

Comprehensive Drug Abuse Prevention
and Control Act of 1970 63

Anti-Drug Abuse Acts of 1986 and 1988 65

State and Local Regulations 66

Federal Support for Drug Screening 68

Military and Federal Employees 68

Transportation Workers 68

Private Employers 68

Public Schools 69

Testing Methods 70

The Impact of Drug Enforcement 71

Budget 71

International Programs 71

Other Federal Agencies	71
Other Costs	71
Effectiveness of Control	73

Section Two

How Drugs Work 77

4 The Nervous System 78

Homeostasis	78
Components of the Nervous System	79
Neurons	79
Glial Cells	80
Neurotransmission	81
Action Potential	81
The Nervous System(s)	82
Somatic Nervous System	82
Autonomic Nervous System	83
Central Nervous System	84
The Brain	84
Chemical Pathways Implicated in Reward	84
Structures	87
Drugs and the Brain	88
Life Cycle of a Neurotransmitter	89
Examples of Drug Actions	92
Chemical Theories of Behavior	92
Brain Imaging Techniques	93
Structural Imaging	94
Functional Imaging	94
Word of Caution	95
Summary	97
Review Questions	97
References	98

5 The Actions of Drugs 101

Sources and Names of Drugs	101
Sources of Drugs	101
Names of Drugs	102
Categories of Drugs	102

Drug Effects	105
Nonspecific (Placebo) Effects	105
Dose-Response Relationships	106
Potency	108
Time-Dependent Factors in Drug Actions	108
Getting the Drug to the Brain	110
A Little "Chemistry"	110
Routes of Administration	111
Transport in the Blood	116
More about the Blood-Brain Barrier	116
Mechanisms of Drug Actions	117
Effects on All Neurons	117
Effects on Specific Neurotransmitter Systems	117
Drug Deactivation	118
Mechanisms of Tolerance and Withdrawal	
Symptoms	119
Summary	120
Review Questions	121
References	121
Check Yourself: How Do Drugs Work?	122

Section Three

Uppers and Downers 123

6 Stimulants 124

Cocaine	124
History	124
Coca Wine	125
Local Anesthesia	125
Early Psychiatric Uses	126
Early Legal Controls on Cocaine	128
Forms of Cocaine	129
Contemporary Legal Controls on Cocaine	129
Mechanism of Action	130
Absorption and Elimination	131
Beneficial Uses	132
Causes for Concern	132
Supplies of Illicit Cocaine	133
Current Patterns of Cocaine Use	134
Cocaine's Future	134
Amphetamines	135
History	135
Basic Pharmacology	138

Beneficial Uses	140
Causes for Concern	144
Summary	145
Review Questions	145
References	146

7 Depressants and Inhalants 147

History and Pharmacology	148
Before Barbiturates	148
Barbiturates	148
Meprobamate	150
Methaqualone	150
Benzodiazepines	151
Nonbenzodiazepine Hypnotics	152
Mechanism of Action	153
Beneficial Uses	153
Anxiolytics	153
As Sleeping Pills	155
As Anticonvulsants	156
Causes for Concern	157
Dependence Liability	157
Toxicity	158
Patterns of Abuse	159
Inhalants	160
Gaseous Anesthetics	160
Nitrites	161
Volatile Solvents	161
GHB (Gamma Hydroxybutyric Acid)	162
Summary	164
Review Questions	164
References	164

8 Medication for Mental Disorders 165

Mental Disorders	165
The Medical Model	165
Classification of Mental Disorders	166
Treatment of Mental Disorders	169
Before 1950	169
Antipsychotics	171
Atypical Antipsychotic Drugs	171
Antidepressants	174
Electroconvulsive Therapy	178
Mood Stabilizers	178

Consequences of Drug Treatments for Mental Illness	180
Summary	181
Review Questions	182
References	182
Check Yourself: Track Your Daily Mood Changes	183

Section Four Alcohol 185

9 Alcohol 186

Alcoholic Beverages	186
Fermentation and Fermentation Products	186
Distilled Products	187
Beer	188
Wine	190
Distilled Spirits	191
Alcohol Use and “The Alcohol Problem”	192
The Temperance Movement in America	192
Prohibition	193
Prohibition Worked!	195
Prohibition Is Repealed	195
Regulation after 1933	196
Taxation	196
Who Drinks? And Why?	196
Cultural Influences on Drinking	196
Trends in U.S. Alcohol Consumption	197
Regional Differences in the United States	198
Gender Differences	198
Drinking among College Students	199
Alcohol Pharmacology	200
Absorption	200
Distribution	200
Metabolism	202
Mechanism(s) of Action	203
Behavioral Effects	203
Time-out	205
Driving under the Influence	206
Sexual Behavior	207
Blackouts	209
Crime and Violence	209
Physiological Effects	210

Alcohol Toxicity	210
Hangover	211
Chronic Disease States	212
Brain Damage	212
Liver Disorders	213
Heart Disease	213
Cancer	214
The Immune System	214
Fetal Alcohol Syndrome	215
Alcohol Dependence	216
Withdrawal Syndrome	216
Dependent Behaviors	218
Summary	220
Review Questions	221
References	222
Check Yourself: Do You Have a Drinking Problem?	223

Section Five

Familiar Drugs 225

10 Tobacco 226

Tobacco History	226
Early Medical Uses	227
The Spread of Tobacco Use	228
Snuff	229
Tobacco in Early America	229
Chewing Tobacco	229
Cigars	230
Cigarettes	230
Tobacco under Attack	231
The Quest for “Safer” Cigarettes	232
Electronic Cigarettes	234
Cigarettes and the FDA	235
Current Cigarette Use	235
Smokeless Tobacco	236
Are Cigars Back?	237
Hookahs	237
Causes for Concern	238
Adverse Health Effects	238
Secondhand Smoke	239
Smoking and Health in Other Countries	239
Smoking and Pregnancy	239

Pharmacology of Nicotine	241
Absorption and Metabolism	241
Physiological Effects	242
Behavioral Effects	243
Nicotine Dependence	243
How to Stop Smoking	244
Summary	246
Review Questions	246
References	246
Check Yourself: Test Your Tobacco Awareness	248

11 Caffeine 249

Caffeine: The World’s Most Common	
Psychostimulant	249
Coffee	249
Tea	253
Chocolate	255
Other Sources of Caffeine	257
Soft Drinks	257
“Energy” Drinks	259
Over-the-Counter Drugs	260
Caffeine Pharmacology	261
Time Course	261
Mechanism of Action	261
Physiological Effects	262
Behavioral Effects	264
Causes for Concern	265
Cancer	265
Reproductive Effects	265
Heart Disease	265
Caffeinism	266
Summary	266
Review Questions	266
References	267
Check Yourself: How Much Caffeine Do You Consume?	268

12 Dietary Supplements and Over-the-Counter Drugs 269

Dietary Supplements	269
Some Psychoactive Dietary Supplements	274
Saint John’s Wort	274
SAMe	274
Ginkgo Biloba	275

Weight-Control Products 276
 Over-the-Counter Drugs 276
 FDA Regulation of OTC Products 277
 Simplifying Labels 278
 Over-the-Counter versus Prescription Drugs 278
 Behind-the-Counter Drugs? 278
 Some Psychoactive OTC Products 279
 Stimulants 279
 Weight-Control Products 279
 Sedatives and Sleep Aids 280
 Analgesics 281
 People and Pain 281
 Aspirin 282
 Acetaminophen 285
 Ibuprofen and Other NSAIDs 286
 Cold and Allergy Products 286
 The All-Too-Common Cold 286
 Treatment of Cold Symptoms 288
 Allergy and Sinus Medications 290
 Choosing an OTC Product 290
 Summary 291
 Review Questions 291
 References 292
 Check Yourself: Can You Guess What These OTC
 Products Are Used For? 293

Section Six Restricted Drugs 295

13 Opioids 296
 History of Opioids 297
 Opium 297
 Morphine 300
 Heroin 301
 Opioid Abuse before the Harrison Act 302
 Abuse after the Harrison Act 303
 Abuse of Prescription Opioids 307
 Pharmacology of Opioids 308
 Chemical Characteristics 308
 Mechanism of Action 309
 Beneficial Uses 311
 Pain Relief 311
 Intestinal Disorders 311
 Cough Suppressants 311

Causes for Concern 311
 Dependence Potential 311
 Toxicity Potential 313
 Patterns of Abuse 314
 Summary 316
 Review Questions 316
 References 316
 Check Yourself: Street Slang 318

14 Hallucinogens 319
 Animism and Religion 319
 Terminology and Types 320
 Phantastica 320
 Indole Hallucinogens 320
 Catechol Hallucinogens 331
 Deliriants 336
 PCP 336
 Anticholinergic Hallucinogens 338
 Amanita Muscaria 341
 Salvia Divinorum 342
 Summary 342
 Review Questions 343
 References 343
 Check Yourself: Hallucinogens from Plants 345

15 Marijuana 347
Cannabis, the Plant 347
 Preparations from *Cannabis* 348
 History 350
 Early History 350
 Building the Case Against Marijuana 350
 The Marijuana Tax Act of 1937 352
 After the Marijuana Tax Act 352
 Pharmacology 353
 Cannabinoid Chemicals 353
 Absorption, Distribution, and Elimination 353
 Mechanism of Action 354
 Physiological Effects 355
 Behavioral Effects 356
 Medical Uses of *Cannabis* 358
 Causes for Concern 361
 Abuse and Dependence 361
 Toxicity Potential 362

Marijuana and American Society	364
Summary	366
Review Questions	367
References	367
Check Yourself: Short-term Memory	369

16 Performance-Enhancing Drugs 371

Historical Use of Drugs in Athletics	372
Ancient Times	372
Early Use of Stimulants	372
Amphetamines	373
International Drug Testing	374
American Football	374
Steroids	375
The BALCO Scandal	375
The Battle over Testing	376
Stimulants as Performance Enhancers	377
Steroids	380
Psychological Effects of Steroids	381
Adverse Effects on the Body	381
Regulation	381
Other Hormonal Manipulations	383
Beta-2 Agonists	383
Creatine	384
Getting “Cut”	384
Summary	385
Review Questions	385
References	385
Check Yourself: How Would You Run the Race?	387

Section Seven

Prevention and Treatment 389

17 Preventing Substance Abuse	390
Defining Goals and Evaluating Outcomes	390
Types of Prevention	391
Prevention Programs in the Schools	392
The Knowledge-Attitudes-Behavior Model	392
Affective Education	394
Antidrug Norms	395
Development of the Social Influence Model	397

DARE	399
Programs That Work	400
Peers, Parents, and the Community	401
Peer Programs	401
Parent and Family Programs	401
Community Programs	402
Prevention in the Workplace	404
What Should We Be Doing?	405
Summary	405
Review Questions	406
References	406
Check Yourself: Do Your Goals and Behaviors Match?	408

18 Treating Substance Use Disorders 409

Behavioral/ Psychosocial Treatments	409
Defining Treatment Goals	410
Alcoholics Anonymous and Others	410
Motivational Enhancement Therapy	411
Contingency Management	413
Cognitive-Behavioral Therapy	414
Pharmacotherapies (Medication Treatments)	414
Detoxification and Maintenance Phase	415
Alcohol	416
Nicotine	417
Opioids	419
Cocaine	420
Cannabis	420
Treatment: The Big Picture in the United States	422
Is Treatment Effective?	422
Summary	423
Review Questions	424
References	424
Appendix A Drug Names	427
Appendix B Resources for Information and Assistance	433
