

## Chapter 2: Financial Aspects of Career Planning

### Across

2. An employment position obtained mainly to earn money, without regard for interests or opportunities for advancement.
3. A letter that accompanies a resume and is designed to express interest in a job and obtain an interview.
5. A commitment to a profession that requires continued training and offers a clear path for occupational growth.
7. A company visit or meeting at which one gathers information about a career or an organization.
8. The process of making and using contacts for obtaining and updating career information.

### Down

1. The development of an employment position that matches your skills with the needs of an organization.
3. Employee benefit programs that allow workers to base their job benefits on a credit system and personal needs.
4. A summary of a person's education, training, experience, and other job qualifications.
6. An experienced employee who serves as a teacher and counselor for a less experienced person in a career field.
