

CONTENTS

in Brief

- | | | | |
|--|-----|--|-----|
| 1. Introduction | 1 | 19. Financial Markets and Asset Prices | 455 |
| 2. National Income Accounting | 22 | 20. The National Debt | 470 |
| 3. Growth and Accumulation | 52 | 21. Recession and Depression | 491 |
| 4. Growth and Policy | 77 | 22. Inflation and Hyperinflation | 508 |
| 5. Aggregate Supply and Demand | 97 | 23. International Adjustment and Interdependence | 530 |
| 6. Aggregate Supply and the Phillips Curve | 118 | 24. Advanced Topics | 573 |
| 7. Unemployment | 152 | Appendix | 609 |
| 8. Inflation | 175 | Glossary | 615 |
| 9. Policy Preview | 188 | Index | 635 |
| 10. Income and Spending | 197 | | |
| 11. Money, Interest, and Income | 223 | | |
| 12. Monetary and Fiscal Policy | 252 | | |
| 13. International Linkages | 289 | | |
| 14. Consumption and Saving | 325 | | |
| 15. Investment Spending | 351 | | |
| 16. The Demand for Money | 381 | | |
| 17. The Fed, Money, and Credit | 402 | | |
| 18. Policy | 427 | | |

CONTENTS

Preface *vii*

1. INTRODUCTION 1
 - 1-1 Macroeconomics Encapsulated in Three Models 3
 - 1-2 To Reiterate . . . 10
 - 1-3 Outline and Preview of the Text 17
 - 1-4 Prerequisites and Recipes 18
2. NATIONAL INCOME ACCOUNTING 22
 - 2-1 The Production of Output and Payments to Factors of Production 23
 - 2-2 Outlays and Components of Demand 26
 - 2-3 Some Important Identities 30
 - 2-4 Measuring Gross Domestic Product 35
 - 2-5 Inflation and Price Indexes 38
 - 2-6 Unemployment 43
 - 2-7 Interest Rates and Real Interest Rates 44
 - 2-8 Exchange Rates 46
 - 2-9 Where to Grab a Look at the Data 47
3. GROWTH AND ACCUMULATION 52
 - 3-1 Growth Accounting 54
 - 3-2 Empirical Estimates of Growth 57
 - 3-3 Growth Theory: The Neoclassical Model 61
4. GROWTH AND POLICY 77
 - 4-1 Growth Theory: Endogenous Growth 78
 - 4-2 Growth Policy 86
5. AGGREGATE SUPPLY AND DEMAND 97
 - 5-1 The Aggregate Supply Curve 101
 - 5-2 The Aggregate Supply Curve and the Price Adjustment Mechanism 104
 - 5-3 The Aggregate Demand Curve 108
 - 5-4 Aggregate Demand Policy Under Alternative Supply Assumptions 110
 - 5-5 Supply-Side Economics 112
 - 5-6 Putting Aggregate Supply and Demand Together in the Long Run 114

6.	AGGREGATE SUPPLY AND THE PHILLIPS CURVE	118
6-1	Inflation and Unemployment	120
6-2	Stagflation, Expected Inflation, and the Inflation-Expectations-Augmented Phillips Curve	123
6-3	The Rational Expectations Revolution	127
6-4	The Wage-Unemployment Relationship: Why Are Wages Sticky?	128
6-5	From Phillips Curve to the Aggregate Supply Curve	134
6-6	Supply Shocks	137
6-7	Unemployment and Inflation: Evaluating the Tradeoffs	141
	Appendix: The Math Behind the Derivation of The Dynamic AS Curve	150
7.	UNEMPLOYMENT	152
7-1	Unemployment	153
7-2	The Beveridge Curve	154
7-3	The Anatomy of Unemployment	154
7-4	Full Employment	162
7-5	The Costs of Unemployment	170
8.	INFLATION	175
8-1	The Costs of Inflation	176
8-2	Inflation and Indexation: Inflation-Proofing the Economy	181
8-3	Is a Little Inflation Good for the Economy?	185
9.	POLICY PREVIEW	188
9-1	A Media Level View of Practical Policy	189
9-2	Policy as a Rule	191
9-3	Interest Rates and Aggregate Demand	193
9-4	Calculating How to Hit the Target	194
10.	INCOME AND SPENDING	197
10-1	Aggregate Demand and Equilibrium Output	198
10-2	The Consumption Function and Aggregate Demand	199
10-3	The Multiplier	205
10-4	The Government Sector	209
10-5	The Budget	214
10-6	The Full-Employment Budget Surplus	217
11.	MONEY, INTEREST, AND INCOME	223
11-1	The Goods Market and the <i>IS</i> Curve	228
11-2	The Money Market and the <i>LM</i> Curve	236
11-3	Equilibrium in the Goods and Money Markets	243
11-4	Deriving the Aggregate Demand Schedule	245
11-5	A Formal Treatment of the <i>IS-LM</i> Model	247

- 12. MONETARY AND FISCAL POLICY 252
 - 12-1 Monetary Policy 254
 - 12-2 The Zero Lower Bound and Unorthodox Monetary Policy 261
 - 12-3 Fiscal Policy and Crowding Out 268
 - 12-4 The Composition of Output and the Policy Mix 273
 - 12-5 The Policy Mix in Action 277
- 13. INTERNATIONAL LINKAGES 289
 - 13-1 The Balance of Payments and Exchange Rates 291
 - 13-2 The Exchange Rate in the Long Run 298
 - 13-3 Trade in Goods, Market Equilibrium, and the Balance of Trade 301
 - 13-4 Capital Mobility 305
 - 13-5 The Mundell-Fleming Model: Perfect Capital Mobility Under Fixed Exchange Rates 310
 - 13-6 Perfect Capital Mobility and Flexible Exchange Rates 313
- 14. CONSUMPTION AND SAVING 325
 - 14-1 The Life-Cycle-Permanent-Income Theory of Consumption and Saving 330
 - 14-2 Consumption Under Uncertainty: The Modern Approach 334
 - 14-3 Further Aspects of Consumption Behavior 339
- 15. INVESTMENT SPENDING 351
 - 15-1 The Stock Demand for Capital and the Flow of Investment 355
 - 15-2 Investment Subsectors—Business Fixed, Residential, and Inventory 364
 - 15-3 Investment and Aggregate Supply 375
- 16. THE DEMAND FOR MONEY 381
 - 16-1 Components of the Money Stock 382
 - 16-2 The Functions of Money 385
 - 16-3 The Demand for Money: Theory 387
 - 16-4 Empirical Evidence 391
 - 16-5 The Income Velocity of Money 395
- 17. THE FED, MONEY, AND CREDIT 402
 - 17-1 Money Stock Determination: The Money Multiplier 403
 - 17-2 The Instruments of Monetary Control 408
 - 17-3 The Money Multiplier and Bank Loans 414
 - 17-4 Control of the Money Stock and Control of the Interest Rate 415
 - 17-5 Money Stock and Interest Rate Targets 416
 - 17-6 Money, Credit, and Interest Rates 419
 - 17-7 Which Targets for the Fed? 423

18. POLICY	427
18-1 Lags in the Effects of Policy	429
18-2 Expectations and Reactions	434
18-3 Uncertainty and Economic Policy	437
18-4 Targets, Instruments, and Indicators:	
A Taxonomy	439
18-5 Activist Policy	440
18-6 Which Target?—A Practical Application	445
18-7 Dynamic Inconsistency and Rules Versus Discretion	447
19. FINANCIAL MARKETS AND ASSET PRICES	455
19-1 Interest Rates: Long and Short Term	456
19-2 The Random Walk of Stock Prices	462
19-3 Exchange Rates and Interest Rates	466
20. THE NATIONAL DEBT	470
20-1 Mechanics of the Debt	471
20-2 Who Owns the Debt?	479
20-3 When Is the Debt a Crisis? Politics and Economics	480
20-4 Debt in the International Arena	485
21. RECESSION AND DEPRESSION	491
21-1 The Great Moderation	492
21-2 The Great Recession: Bubbles and Bust	494
21-3 The Great Depression: the Facts	497
21-4 The Great Depression: The Issues and Ideas	502
22. INFLATION AND HYPERINFLATION	508
22-1 Money and Inflation in Ordinary Business Cycles	509
22-2 Hyperinflation	514
22-3 Deficits, Money Growth, and the Inflation Tax	522
23. INTERNATIONAL ADJUSTMENT AND INTERDEPENDENCE	530
23-1 Adjustment Under Fixed Exchange Rates	531
23-2 Exchange Rate Changes and Trade Adjustment:	
Empirical Issues	540
23-3 The Monetary Approach to the Balance of Payments	547
23-4 Flexible Exchange Rates, Money, and Prices	550
23-5 Interest Differentials and Exchange Rate Expectations	556
23-6 Exchange Rate Fluctuations and Interdependence	559
23-7 The Choice of Exchange Rate Regimes	566
24. ADVANCED TOPICS	573
24-1 An Overview of the New Macroeconomics	574
24-2 The Rational Expectations Revolution	580
24-3 The Microeconomics of the Imperfect Information Aggregate Supply Curve	587

24-4	The Random Walk of GDP: Does Aggregate Demand Matter, or Is It All Aggregate Supply?	591
24-5	Real Business Cycle Theory	595
24-6	A New Keynesian Model of Sticky Nominal Prices	598
24-7	Dynamic Stochastic General Equilibrium Models	602
24-8	Bringing It All Together	604
	Appendix	609
	Glossary	615
	Index	635
