

## Reading Tip

As you preview this chapter, be sure to scan the illustrations, tables, and graphs. Skim the captions.

### Target Your Reading

Use this to focus on the main ideas as you read the chapter.

- 1 Before you read** the chapter, respond to the statements below on your worksheet or on a numbered sheet of paper.
  - Write an **A** if you **agree** with the statement.
  - Write a **D** if you **disagree** with the statement.
- 2 After you read** the chapter, look back to this page to see if you've changed your mind about any of the statements.
  - If any of your answers changed, explain why.
  - Change any false statements into true statements.
  - Use your revised statements as a study guide.

Before You Read A or D	Statement	After You Read A or D
	<b>1</b> If not supported by evidence collected over time, scientists reject a theory.	
	<b>2</b> Some living things do not require water to survive.	
	<b>3</b> There is just one way to approach a scientific problem.	
	<b>4</b> Some organisms grow by enlarging cells.	
	<b>5</b> Following safety rules in lab not only protects you but your classmates as well.	
	<b>6</b> All living things use energy.	
	<b>7</b> Living things can grow spontaneously from nonliving things.	
	<b>8</b> Scientists rarely repeat experiments.	
	<b>9</b> An organism's classification can change with the discovery of new information.	
	<b>10</b> All living things reproduce.
