

Reading Tip

As you read, check the predictions you made to see if they were correct.

Target Your Reading

Use this to focus on the main ideas as you read the chapter.

- 1 Before you read** the chapter, respond to the statements below on your worksheet or on a numbered sheet of paper.
 - Write an **A** if you **agree** with the statement.
 - Write a **D** if you **disagree** with the statement.
- 2 After you read** the chapter, look back to this page to see if you've changed your mind about any of the statements.
 - If any of your answers changed, explain why.
 - Change any false statements into true statements.
 - Use your revised statements as a study guide.

Before You Read A or D	Statement	After You Read A or D
	1 The exchange of oxygen and carbon dioxide happens by diffusion.	
	2 Breathing is the same as respiration.	
	3 Vocal sounds are made by the trachea.	
	4 Air enters and leaves your body when you diaphragm contracts and relaxes.	
	5 Respiratory problems have no effect on other body systems.	
	6 Your skin is part of your excretory system.	
	7 Kidneys filter wastes from your blood.	
	8 It takes about two hours for all of your blood to move through your kidneys.	
	9 Most urinary infections begin in the bladder.	
	10 Your circulatory system does not connect with your excretory system.
