Projects Across the Curriculum 3 (page 302)

Create a United States Database

Directions: After you have finished your project, determine whether you have completed the criteria listed in the left column. Fill in the checklist in the shaded columns below and then turn the rubric in to your teacher along with your project.

Criteria	Student Checklist		Teacher Evaluation
	Completed	Not Completed	Comments
Divide the 50 states among your team members			
Use the Internet, an Almanac or other resources to find the information listed for each state			
Create a database and table for the data collected			
Make a form for easy data entry			
Use sorts and filters to display the records by state name, area, population, and highest point			
Create a report that shows the population of each state, from highest to lowest population			
Use correct spelling, punctuation, and grammar			
Edit to make your database clear and free of errors
