XPM Mapping

Computer Accounting with QuickBooks 2019 uses a highly effective three-step approach to streamline learning: streamline learning: eXplore, Practice, Master (XPM).

1. eXplore. Providing numerous screen shots and detailed instructions, chapters in Computer Accounting with QuickBooks are designed as tutorials for you to explore and learn QuickBooks features.

2. Practice. Designed with fewer instructions, the end-of-chapter exercises provide opportunities for you to practice and test your understanding.

3. Master. Virtual company projects and case studies provide mastery opportunities for you to apply and integrate your QuickBooks skills.
