WORK ETHIC AND INTERPERSONAL RELATIONSHIPS

Directions: Match the term in Column 2 with its definition in Column 1.

Column 1

- _____ 1. On time and ready to work.
- _____ 2. Inspired to increase knowledge and to advance.
- _____ 3. Able to produce work with few or no errors.
- _____ 4. Able to understand how a patient feels.
- _____ 5. Careful to pay attention to detail.
- _____ 6. Truthful; trustworthy.
- _____ 7. Privacy for all patient information.
- _____ 8. Ability to take independent action.
- _____ 9. The correct appearance for the job.
- _____ 10. Able to present ideas and information without offending.
- _____ 11. A person who works well with associates and pitches in when needed.
- _____ 12. Able to make good use of time and materials and to be organized.
- _____ 13. Able to present ideas to others with confidence.
- _____ 14. Pleasant and friendly.
- _____ 15. Able to adapt to new conditions; willing to try new ideas.

Column 2

- a. accurate
- b. assertive
- c. cheerful
- d. confidentiality
- e. efficient
- f. empathetic
- g. flexible
- h. honest
- i. initiative
- j. professional image
- k. punctual
- l. self-motivated
- m. tactful
- n. team player
- o. thorough

Name: _____ Date: _____

PHYSICIAN'S OBLIGATIONS AND MEDICAL LAW

Directions: The following items refer to the obligations of the physician and/or medical law. Mark each statement with either "T" for *true* or "F" for *false*. Be prepared to discuss your answers in class.

- _____ 1. The Principles of Medical Ethics states that the physician may refuse to accept a new patient.
- _____ 2. A license to practice is good for the life of the physician.
- _____ 3. A physician must obtain an annual permit for narcotic registration.
- _____ 4. The physician is legally obligated to inform a patient of all possible reactions to a medication.
- _____ 5. A physician must obtain a written consent before seeing a new patient.
- _____ 6. A physician is legally obligated to seek a referral if the conditions are beyond the physician's scope of knowledge.
- _____ 7. A physician's license to practice medicine is valid in all 50 states.
- _____ 8. Medical practice acts, established by law, govern the practice of medicine.
- _____ 9. The physician cannot refuse to perform a procedure on a patient because of that physician's moral beliefs.
- _____ 10. The Drug Education Administration issues narcotic registration and annual renewals.
- _____ 11. When a patient visits a physician for an appointment, he or she is establishing implied consent.
- _____ 12. A physician must obtain the maximum amount of education in a particular medical specialty before becoming certified in that specialty.
- _____ 13. The adult age as defined by law is known as *majority*.
- _____ 14. Express consent is not required in an emergency situation.
- _____ 15. A physician must sign a consent form before performing any procedure.

Name: _____ Date: _____

MEDICAL LIABILITY AND COMMUNICATIONS

Directions: The following items refer to medical liability and communications. Mark each statement with either “T” for *true* or “F” for *false*. Be prepared to discuss your answers in class.

- _____ 1. The charge of battery exists when there is a clear threat of injury to another.
- _____ 2. A subpoena orders the defendant to answer the stated charges.
- _____ 3. Contributory negligence may exist if the patient has failed to follow the physician’s advice and treatment.
- _____ 4. Access to health records is the form that contains written permission to release patient information.
- _____ 5. Defensive medicine means the physician is dissolving legal responsibility.
- _____ 6. An authorization for release of information does not have the physician’s signature.
- _____ 7. A statute of limitations controls the time limit for starting a lawsuit.
- _____ 8. Using e-mail to transmit medical documents is preferred over faxing documents.
- _____ 9. In a lawsuit, the burden of proof that malpractice exists rests on the patient.
- _____ 10. The physician may be charged with abandonment if the physician discontinues care without sending proper notification to the patient.
- _____ 11. Statutory reports require that the patient’s condition be reported to the patient’s insurance.
- _____ 12. Operating beyond the patient’s expressed consent may establish a charge of battery.
- _____ 13. A deposition is sent to the defendant requiring the defendant’s appearance in court.
- _____ 14. A Good Samaritan act states that a patient may start a lawsuit upon reaching majority.
- _____ 15. HIPAA is a federal law that protects the security and privacy of a patient’s electronic health information.

LEGAL TERMS

Directions: Match the term in Column 2 with its definition in Column 1.

Column 1

- _____ 1. Standards of right and wrong conduct.
- _____ 2. Adherence to rules and regulations.
- _____ 3. Patient's permission for treatment when he or she enters a doctor's office.
- _____ 4. Legal responsibility.
- _____ 5. Testimony under oath, usually outside of court.
- _____ 6. Behavior and customs that are considered good manners.
- _____ 7. Time limit for a lawsuit to start.
- _____ 8. Physician's leaving a case before the patient is recovered.
- _____ 9. State law that governs the state's practice of medicine.
- _____ 10. Patient's written agreement to have a procedure performed.
- _____ 11. Clear threat of injury.
- _____ 12. Depriving others of their rights by dishonest means.
- _____ 13. A lawsuit.
- _____ 14. Legal document ordering all relevant documents to be submitted to the court.
- _____ 15. Authorization to send the patient's information to another physician.
- _____ 16. Operating beyond the patient's given consent.
- _____ 17. Written notice sent to the defendant asking for an answer to the charges.
- _____ 18. Resolution of a case brought about by an unbiased third party.
- _____ 19. Protection for the physician from liability of civil damages in emergency care.
- _____ 20. Confidential information that must be submitted to the state department.

Column 2

- a. abandonment
- b. arbitration
- c. assault
- d. battery
- e. compliance
- f. deposition
- g. ethics
- h. etiquette
- i. express consent
- j. fraud
- k. Good Samaritan act
- l. implied consent
- m. liability
- n. litigation
- o. medical practice act
- p. release of information
- q. statute of limitations
- r. statutory report
- s. subpoena
- t. summons

CHART NOTE

Sherman, Florence

312-555-1217

DOB: 05/22/19--

Age: 65

10/08/20--

CHIEF COMPLAINT: Trouble with vision.

SUBJECTIVE: Patient is a 65-year-old female who had two episodes during the last week of jagged lights occurring in central visual field. These lasted 15–20 minutes; no other symptoms. Patient has long history of migraines.

OBJECTIVE: Within normal limits; specifically, no evidence of tear or hole in the retina.

ASSESSMENT: Migraine equivalent vs. posterior vitreous detachment.

PLAN:

1. Discussed with ophthalmologist, Richard Diangelis, MD. Patient advised about signs and symptoms of detachment of the retina and told to seek immediate medical attention should any of these signs appear.
2. Trial of Midrin for migraines.
3. Recheck in one to two months.
4. Patient requests referral to Dr. Diangelis.

Karen Larsen, MD/lS

↓ 2 inches

RUBELLA (GERMAN MEASLES)

Doublespace body.
Page numbers on upper
right starting on page 2.

↓ 2

DEFINITION

Rubella (german measles) is a ^{highly} communicable viral disease characterized by diffuse punctate, macular rash. Rubella is a relatively benign viral illness unless there is transplacental transmission. (Define the following terms: *communicable, diffuse, punctate, transplacental, and macular.*)

ETIOLOGY

Rubella is caused by rubella virus (*Rubivirus*) that is spread by air borne direct contact with nasopharyngeal secretion. This disease is communicable from one week before the rash appears to five days after the rash disappears. Rubella is most common in children but may also affect adults who were not infected during childhood. (Define the following terms: airborne, direct contact, and nasopharyngeal.)

INCIDENCE

Rubella occurs most often in the spring, but there are major epidemics occurring in 6- to 9-year cycles. (Investigate recent epidemics vs. the use of the vaccine.)

PATHOPHYSIOLOGY

The virus invades the nasopharynx and travels to the lymphglands, causing lymphadenopathy. Then in 5 to seven days it enters the blood stream stimulating an immune response causing the rash. This rash lasts about three days. (Define lymphadenopathy.)

CLINICAL SYSTEMS

The first clinical symptoms of rubella include swollen glands, fever, sore throat, cough, and fatigue. The pruritic rash generally starts in 1 to 5 days after the prodrome. The rash begins on the face and trunk and spreads to the upper and lower extremities. Symptoms of headache and conjunctivitis may occur after the rash. (Define conjunctivitis, pruritic, and swollen glands.)

ADDITIONAL ASSIGNMENT:

Investigate what complication may occur to a fetus and a child with rubella, describing each complication plus its incidence.

Investigate what complication may occur in adult with rubella, describing each complication plus its incidence.

Investigate what diagnostic testing can be done for the occurrence of rubella.

Investigate treatment options.

MUMPS (INFECTIOUS PAROTITIS)

DEFINITION

Mumps is an ^{acute} viral disease that may include myalgia, anorexia, malaise, headache, low-grade fever, ^{and} parotid gland tenderness and unilateral or bi^{lateral} swelling, although many[#] other organs can be involved. (Define the following terms: *myalgia*, *anorexia*, and *malaise*.)

ETIOLOGY

Mumps is caused ^{by} paramyxovirus transmitted in saliva droplets or direct contact. The virus lives in the saliva ^{for} six to ⁹ days before the parotid gland swelling. The highest communicable period is 48 hours before the on^{set} of swelling but continues until swelling is decreased. Incubation period range^s from 14 to 25 days.

INCIDENCE

(Investigate the incidence in the past 10 years.)

PATHOPHYSIOLOGY

During the incubation period, the virus invades ^{the} salivary glands which causes tissue edema ^{and} and infiltration of lymphocytes. Degeneration of cells in the glandular tissue produce^s necrotic debris that plugs the ducts.

CLINICAL SYMPTOMS

The prodrome ^{of mumps} generally begins with ~~generally begins~~ ^{the} myalgia, anorexia, malaise, headache, and low-grade fever. Next the patient may have an ear ^{ache} aggravated by chewing, temperature of 101[°] to 104[°] F, and pain from chewing food or drinking acidic liquid. Both the parotid gland and other salivary glands ^{may} become swollen. (Define *prodrome*.)

ADDITIONAL ASSIGNMENT:

Investigate what complications may occur with mumps in ^{both} children and adults.

Summarize how mumps would be diagnosed.

Summarize outpatient and inpatient ⁱⁿ complications of treatment.

SCHEDULING DECISION MAKING

Directions: The following calls in Column 1 are for a family practice physician. The physician does see emergencies in the office. Choose the appropriate response from Column 2 to indicate when an appointment should be made for **STAT**, **Today**, **Tomorrow**, **Later**, or a message taken — **Take message**.

Column 1

- _____ 1. Loni Kayen desires weight control, 312-555-9834.
- _____ 2. North Lab's report on prothrombin time for Walter Boone; control was 11.6; patient, 18, 312-555-6757.
- _____ 3. Hank Holm at 312-555-4432 wants to talk to the doctor about his left leg cast; it seems too tight, feels numbness in his toes.
- _____ 4. Brian Verk at 312-555-2389 needs diabetes recheck.
- _____ 5. Kay Frank, bee sting, left face check, swelling and a hard spot in the middle; she has no allergies; 312-555-6734.
- _____ 6. Beth Cater has a urinary problem, hurts to urinate, no blood in urine, 312-555-9823.
- _____ 7. True Value Drug, 312-555-9877, prescription refill Diane Yvon, Coumadin 5 mg q.d., #60, last filled two months ago.
- _____ 8. Hu Grangdon, rash over abdomen times 2 days, itching, no new foods or meds, 312-555-3341.
- _____ 9. Ben Jones, BP recheck, 312-555-3478.
- _____ 10. Dana Lund, annual Pap smear, 312-555-0043.
- _____ 11. Donna Kelly, son Alex got hit in head with a bat, bleeding, swelling, 312-555-9823.
- _____ 12. North X-ray, 312-555-6757, chest x-ray on Ann Tyn is negative.
- _____ 13. Pamela Bond, 6-week checkup for baby Keith, 312-555-5636.
- _____ 14. Rein Los Ames, age 2 months, cranky, pulling right ear, slight temperature, 312-555-3223.
- _____ 15. Tom Urness, 312-555-5574, age 47, noticed blood in stools, very concerned, read about colon cancer in recent magazine.
- _____ 16. Karin Olsson, age 72, infected hangnail with green pus, hurts, swollen, 312-555-9966.
- _____ 17. Wendy Rinke, age 8, something in her eye, red, watering. Father was sanding where she was playing, 312-555-7845.

OUT-OF-OFFICE SCHEDULING

Directions: You are working for several physicians: Dr. R. Gain, a cardiologist; Dr. J. Brent, a family practice physician; and Dr. E. Oren, a general surgeon. Determine what element is missing in the situations in Column 1. Choose the appropriate response from Column 2.

Column 1

- _____ 1. Dr. Gain asks you to admit the patient, age 72, with a recent myocardial infarction to University Hospital today for controlled cardiovascular monitoring.
- _____ 2. Dr. Oren asks you to schedule a gastrectomy for Les Weiner, age 65, at University Hospital next Monday or Tuesday morning.
- _____ 3. Dr. Brent asks you to schedule Mary Maye for a bone marrow aspiration at University Hospital Lab because of her iron deficiency anemia.
- _____ 4. Peter Nu fractured his right wrist playing racquetball. Dr. Brent wants you to schedule an appointment with an orthopedic surgeon as soon as possible for possible surgery.
- _____ 5. Dr. Brent asks you to refer a 4-year-old patient, Jan Davis, with acute lymphocytic leukemia to an oncologist next week to start a program of chemotherapy.
- _____ 6. Dr. Oren wants you to schedule a short-stay surgery room at University Hospital for Tina Messer next Tuesday morning. Tina has a nodule in her right breast.
- _____ 7. Dr. Gain wants you to admit Ian Wenth to University Hospital. Ian has pulmonary insufficiency caused by pneumonia and will need intensive oxygen therapy.
- _____ 8. Patient Larry Phen has been diagnosed with emphysema. Dr. Gain now wants to refer Larry to a pulmonary specialist as soon as possible for therapeutic management.
- _____ 9. Dr. Brent wants to refer this patient as soon as possible to Dr. Henri Wilson, a neurologist. The patient's migraines have increased in frequency and in severity; her therapeutic program needs to be reevaluated.
- _____ 10. Dr. Oren wants you to admit Jane Hanson with appendicitis to University Hospital this morning.

Column 2

- a. Specialist's name
- b. Patient's name
- c. Diagnosis or problem
- d. When to be seen
- e. Procedure to be performed

COMMUNICATIONS TERMS

Directions: Match the term in Column 2 with its definition in Column 1.

Column 1

- _____ 1. The type of letter formatting that begins all parts of the letter at the left margin.
- _____ 2. Manuscript sources at the bottom of the page on which the source is cited.
- _____ 3. Careful reading and examination of a document to find and correct errors.
- _____ 4. Style that has a colon after the salutation and a comma after the complimentary closing.
- _____ 5. To skim a document and write notes in the margin.
- _____ 6. Letter that begins the date line, complimentary closing, and signature line at the center point.
- _____ 7. Fastest way to send heavier mail items that weigh less than 70 pounds.
- _____ 8. Mail service providing the greatest security for valuables.
- _____ 9. Style without punctuation after the salutation and complimentary closing.
- _____ 10. Assessing a document to determine its clarity, consistency, and overall effectiveness.
- _____ 11. Mail service that provides the sender with a mailing receipt.
- _____ 12. Letter without a salutation or complimentary closing.
- _____ 13. Rate used for books or film.
- _____ 14. Fastest mail service, available 365 days a year.
- _____ 15. Manuscript sources placed on a separate page following the last page of text.

Column 2

- a. annotate
- b. block-style letter
- c. certified mail
- d. editing
- e. endnotes
- f. Express Mail
- g. footnotes
- h. Media Mail
- i. modified-block-style letter
- j. open punctuation
- k. Priority Mail
- l. proofreading
- m. registered mail
- n. simplified-style letter
- o. standard punctuation

COMPUTER TERMS

Directions: Match the term in Column 2 with its definition in Column 1.

Column 1

- _____ 1. Software that relates to specific tasks, such as word processing.
- _____ 2. Communications system for exchanging messages written on a computer over telephone lines.
- _____ 3. Portable, notebook-sized computers.
- _____ 4. The brain of a computer.
- _____ 5. Software that allows a person to edit a printed document.
- _____ 6. A display screen.
- _____ 7. Software that transcribes spoken words into text without using a keyboard.
- _____ 8. A system that allows a group of computers to communicate, exchange information, or pool resources.
- _____ 9. A personal computer small enough to fit in a person's hand.
- _____ 10. Software that allows the creation of images on the computer.
- _____ 11. A collection of related data.
- _____ 12. A removable storage medium.
- _____ 13. Temporary computer memory.
- _____ 14. Software that allows numerical data to be tabulated according to mathematical formulas.
- _____ 15. A device to input data.

Column 2

- a. application software
- b. CPU
- c. database
- d. flash drive
- e. e-mail
- f. graphics application
- g. keyboard
- h. monitor
- i. networking
- j. palm computer
- k. laptops
- l. RAM
- m. spreadsheet program
- n. voice-recognition software
- o. word processing program

COMPUTER TECHNOLOGY

Directions: The following items refer to computer technology. Mark each statement with either “T” for *true* or “F” for *false*. Be prepared to discuss your answers in class.

- _____ 1. It is easier to locate open time slots for appointments on an electronic scheduler than on a paper schedule.
- _____ 2. Only one user at a time can access a file on a network.
- _____ 3. A mainframe computer is necessary to operate any doctor’s office.
- _____ 4. A firewall prevents outsider parties from access to the office’s particular files.
- _____ 5. ROM is temporary; everything in ROM disappears when the computer is shut down.
- _____ 6. When you are online, you are connected to a network.
- _____ 7. An electronic medical record must be backed up with a paper medical record.
- _____ 8. E-mail systems do not allow you to print messages.
- _____ 9. A transaction database contains data on a specific patient’s visit, including such items as services rendered during that visit, necessary diagnosis and procedure codes, and so forth.
- _____ 10. The cost of filing an electronic insurance claim is higher than that of filing a paper copy.
- _____ 11. A scanner allows you to enter information into the computer’s memory without keying it.
- _____ 12. Designing the work environment to conform to the physical needs of a user is ergonomics.
- _____ 13. A firewall turns data into unrecognizable information during transmission.
- _____ 14. Wireless communication transmits data through telephone wires.
- _____ 15. The most powerful computer available is the supercomputer.
- _____ 16. Virus checkers do not need to be updated.
- _____ 17. A screen saver protects data from being seen by others.
- _____ 18. Everyone in the medical office will be performing audit trails on computer usage.
- _____ 19. Passwords are designed to limit access to computer files.
- _____ 20. An office does not need a signed release-of-information form for use with electronic health records.

Knowledge of the EHR

Directions: The following items refer to insurance plans and processing claims. Mark each statement with either "T" for *true* or "F" for *false*. Be prepared to share your answers with the class.

- _____ 1. The use of EHR has been an unnatural outgrowth of the widespread clinical use of computers in the healthcare industry.
- _____ 2. For many facilities and private practices the cost of EHR is prohibitive.
- _____ 3. Frequent and ongoing training for medical team members is imperative to ensure the integrity of the input data and the security of the system.
- _____ 4. Policies and procedures for updating personnel and evidence of the training should be placed in the Personnel Manual.
- _____ 5. Converting paper-based records to electronic health records requires the scanning of paper records into the electronic database.
- _____ 6. Until electronic health records are fully implemented into the healthcare system, scanners will be provided.
- _____ 7. After all office medical documents have been scanned into the system, hard copy lab reports, consultation letters, etc. will automatically be entered into the patient's electronic records.
- _____ 8. Converting paper-based records to electronic health records requires the scanning of paper records into the electronic database.
- _____ 9. Errors will not occur in EMR, only in the paper-based record.
- _____ 10. There is no need for proofreading electronic medical data.
- _____ 11. To correct an electronic medical record error, use the same method used to correct a paper-based medical record error.
- _____ 12. An electronic signature or initials are not needed when correcting erroneous information in the EHR.
- _____ 13. Completely removing electronic data is an acceptable practice when utilizing EHR.
- _____ 14. There are many advantages to converting from paper-based medical records to electronic EHR.
- _____ 15. Initial cost and contract fees are relatively inexpensive for healthcare providers.

INSURANCE TERMINOLOGY

Directions: Match the term in Column 2 with its definition in Column 1.

Column 1

- _____ 1. Insurance through employment, with all employees having one master policy.
- _____ 2. Person who is covered by an insurance policy.
- _____ 3. Insurance company that provides insurance benefits.
- _____ 4. Provides reimbursement for income lost because of insured's illness.
- _____ 5. Rate charged for policy.
- _____ 6. Healthcare professional who supplies the healthcare.
- _____ 7. Ensures that payment for medical expenses will not exceed 100 percent of the medical expenses.
- _____ 8. Generally covers hospitalization, lab tests, surgery, and x-rays.
- _____ 9. A term used to describe an insurance company in the context of the doctor's and patient's relationship.
- _____ 10. Covers medically necessary services while insured is an inpatient.
- _____ 11. Covers physician's services for office visits.
- _____ 12. Covers medical expenses in a catastrophic situation.
- _____ 13. In a family with two family insurance contracts, determines which policy will be the primary carrier for the children.
- _____ 14. Covers physician's fee for surgery.
- _____ 15. Person in whose name the policy is written.

Column 2

- a. basic insurance plan
- b. birthday rule
- c. carrier
- d. COB
- e. disability insurance
- f. group insurance
- g. hospital insurance
- h. insured
- i. major medical insurance
- j. medical insurance
- k. policyholder
- l. premium
- m. provider
- n. surgical insurance
- o. third-party payer

INSURANCE PLANS, PAYERS, AND PAYMENT METHODS

Directions: The following items refer to insurance plans and processing claims. Mark each statement with either “T” for *true* or “F” for *false*. Be prepared to discuss your answers in class.

- _____ 1. Coinsurance is the amount of medical expense that the insured must pay before the insurance carrier begins paying benefits.
- _____ 2. A government agency called the Centers for Medicare and Medicaid Services (CMS) administers the Medicare and Medicaid programs.
- _____ 3. In an indemnity plan, patients receive medical services from a primary care physician who coordinates the patient’s overall care.
- _____ 4. Coinsurance is the percentage of each claim that the insured must pay, according to the terms of the insurance policy.
- _____ 5. Everyone eligible for Medicare Part A (hospitalization insurance) automatically receives Medicare Part B (medical insurance).
- _____ 6. *Balance billing* refers to billing the patient for any amount due on a provider’s bill after the insurance company has taken care of its responsibility.
- _____ 7. The customary fee, in insurance terms, is the most the insurance company will pay any provider for a given procedure.
- _____ 8. Every time HMO and PPO members visit their physician, they pay a set charge called a copayment.
- _____ 9. A PAR provider who agrees to accept the allowed charge set forth by the insurance company as payment in full is accepting assignment.
- _____ 10. In a capitated plan, a physician may receive \$35 per month for each patient assigned to him or her, even if the patient receives no care during that month.
- _____ 11. A Medicare participating provider decides whether to accept assignment on a claim-by-claim basis.
- _____ 12. RBRVS is the payment system used by Medicare for determining how much it will pay for inpatient care.
- _____ 13. When the amount the physician charges is more than the insurance company’s allowed charge, the difference must be absorbed by the insurance company or the provider.

October 20, 20--

Karen Larsen, MD
2235 South Ridgeway Avenue
Chicago, IL 60623-2240

Dear Dr. Larsen:

RE: David Kramer

DOB: 4/28/20--

David is up to date on his immunizations. His immunization record is as follows:

DTP: 3 months (7/26/20--)	Oral polio: 3 months (7/26/20--)
6 months (10/22/20--)	6 months (10/22/20--)
9 months (1/29/20--)	9 months (1/29/20--)

MMR: 2 years (5/2/20--)

David is due for a booster DTP before starting kindergarten.

If you have any questions, please contact our office.

Sincerely,

Grace Tai, MD
