

# Contents

Preface xii

## CHAPTER 1

### Introduction to Wellness, Fitness, and Lifestyle Management 1

#### WELLNESS: THE NEW HEALTH GOAL 2

- The Dimensions of Wellness 2
- New Opportunities, New Responsibilities 3
- Behaviours That Contribute to Wellness 4
- The Role of Other Factors in Wellness 6
- National Wellness Goals 7

#### REACHING WELLNESS THROUGH LIFESTYLE MANAGEMENT 7

- Getting Serious About Your Health 8
- Building Motivation to Change 9
- Enhancing Your Readiness to Change 12
- Developing Skills for Change: Creating a Personalized Plan 12
- Putting Your Plan into Action 16
- Staying With It 17
- Being Fit and Well for Life 17

*Tips for Today* 18

*Summary* 18

*For Further Exploration* 19

*Selected Bibliography* 20

**Lab 1.1** Your Wellness Profile 21

**Lab 1.2** Lifestyle Evaluation 23

## CHAPTER 2

### Basic Principles of Physical Fitness 25

#### PHYSICAL ACTIVITY AND EXERCISE FOR HEALTH AND FITNESS 26

- Physical Activity on a Continuum 26
- How Much Physical Activity Is Enough? 28

#### HEALTH-RELATED COMPONENTS OF PHYSICAL FITNESS 28

- Cardiorespiratory Endurance 28
- Muscular Strength 29
- Muscular Endurance 29
- Flexibility 29
- Body Composition 30
- Skill-Related Components of Fitness 30

#### PRINCIPLES OF PHYSICAL TRAINING: ADAPTATION TO STRESS 30

- Specificity—Adapting to Type of Training 30
- Progressive Overload—Adapting to Amount of Training and the FITT Principle 31
- Reversibility—Adapting to a Reduction in Training 32
- Individual Differences—Limits on Adaptability 32

#### DESIGNING YOUR OWN EXERCISE PROGRAM 33

- Medical Clearance 33
- Assessment 33
- Setting Goals 33
- Choosing Activities for a Balanced Program 33
- Guidelines for Training 36

*Tips for Today* 39

*Summary* 39

*For Further Exploration* 40

*Selected Bibliography* 42

**Lab 2.1** Safety of Exercise Participation 43

**Lab 2.2** Your Physical Activity Profile 45

**Lab 2.3** Overcoming Barriers to Being Active 47

## CHAPTER 3

### Cardiorespiratory Endurance 51

#### BASIC PHYSIOLOGY OF CARDIORESPIRATORY ENDURANCE EXERCISE 52

- The Cardiorespiratory System 52

Energy Production 54  
Exercise and the Three Energy Systems 54

### **BENEFITS OF CARDIORESPIRATORY ENDURANCE EXERCISE 56**

Improved Cardiorespiratory Functioning 56  
Improved Cellular Metabolism 57  
Reduced Risk of Chronic Disease 58  
Better Control of Body Fat 59  
Improved Immune Function 60  
Improved Psychological and Emotional Well-Being 60

### **ASSESSING CARDIORESPIRATORY FITNESS 60**

Assessment Tests 61  
Monitoring Your Heart Rate 62  
Interpreting Your Score 62

### **DEVELOPING A CARDIORESPIRATORY ENDURANCE PROGRAM 62**

Setting Goals 63  
Applying the FITT Equation 64  
Warming Up and Cooling Down 66  
Building Cardiorespiratory Fitness 67  
Maintaining Cardiorespiratory Fitness 68

### **EXERCISE SAFETY AND INJURY PREVENTION 68**

Hot Weather and Heat Stress 68  
Cold Weather 70  
Poor Air Quality 70  
Exercise Injuries 70

*Tips for Today* 73  
*Summary* 73  
*For Further Exploration* 75  
*Selected Bibliography* 76

**Lab 3.1** Assessing Your Current Level of Cardiorespiratory Endurance 77

**Lab 3.2** Developing an Exercise Program for Cardiorespiratory Endurance 81

## **CHAPTER 4**

### **Muscular Strength and Endurance 83**

#### **BASIC MUSCLE PHYSIOLOGY AND THE EFFECTS OF STRENGTH TRAINING 84**

#### **BENEFITS OF MUSCULAR STRENGTH AND ENDURANCE 85**

Improved Performance of Physical Activities 85  
Injury Prevention 86  
Improved Body Composition 86  
Enhanced Self-Image and Quality of Life 86  
Improved Muscle and Bone Health with Aging 86  
Prevention and Management of Chronic Disease 86

### **ASSESSING MUSCULAR STRENGTH AND ENDURANCE 87**

#### **CREATING A SUCCESSFUL STRENGTH TRAINING PROGRAM 88**

Static Versus Dynamic Strength Training Exercises 88  
Applying the FITT Principle: Selecting Exercises and Putting Together a Program 89  
The Warm-Up and Cool-Down 91  
More Advanced Strength Training Programs 92  
A Caution About Natural Health Products and Drugs 93

#### **WEIGHT TRAINING EXERCISES 97**

*Tips for Today* 111  
*Summary* 111  
*For Further Exploration* 112  
*Selected Bibliography* 114

**Lab 4.1** Assessing Your Current Level of Muscular Strength 115

**Lab 4.2** Assessing Your Current Level of Muscular Endurance 119

**Lab 4.3** Designing and Monitoring a Strength Training Program 123

## **CHAPTER 5**

### **Flexibility and Low-Back Health 125**

#### **WHAT DETERMINES FLEXIBILITY? 126**

Joint Structure 126  
Muscle Elasticity and Length 126  
Nervous System Activity 127

#### **BENEFITS OF FLEXIBILITY AND STRETCHING EXERCISES 127**

Joint Health 127  
Prevention of Low-Back Pain and Injuries 127  
Additional Potential Benefits 128  
Flexibility and Lifetime Wellness 128

#### **ASSESSING FLEXIBILITY 128**

#### **CREATING A SUCCESSFUL PROGRAM TO DEVELOP FLEXIBILITY 128**

Applying the FITT Principle 128  
Making Progress 131  
Exercises to Improve Flexibility 131

#### **PREVENTING AND MANAGING LOW-BACK PAIN 137**

Function and Structure of the Spine 137  
Causes of Back Pain 138  
Preventing Low-Back Pain 138  
Managing Acute Back Pain 138

Managing Chronic Back Pain 140  
Exercises for the Prevention and Management of  
Low-Back Pain 140

*Tips for Today* 144

*Summary* 144

*For Further Exploration* 145

*Selected Bibliography* 146

**Lab 5.1** Assessing Your Current Level of Flexibility 147

**Lab 5.2** Creating a Personalized Program for  
Developing Flexibility 153

**Lab 5.3** Assessing Muscular Endurance for  
Low-Back Health 155

**Lab 5.4** Posture Evaluation 157

## CHAPTER 6

Body Composition 159

**WHAT IS BODY COMPOSITION, AND WHY  
IS IT IMPORTANT?** 160

Overweight and Obesity Defined 160

Prevalence of Overweight and Obesity

Among Canadians 161

Excess Body Fat and Wellness 162

Problems Associated with Very Low Levels of Body Fat 164

**ASSESSING BODY MASS INDEX, BODY  
COMPOSITION, AND BODY FAT DISTRIBUTION** 165

Calculating Body Mass Index 166

Estimating Percent Body Fat 167

Assessing Body Fat Distribution 169

**SETTING BODY COMPOSITION GOALS** 169

**MAKING CHANGES IN BODY COMPOSITION** 169

*Tips for Today* 170

*Summary* 170

*For Further Exploration* 170

*Selected Bibliography* 172

**Lab 6.1** Assessing Body Mass Index  
and Body Composition 173

**Lab 6.2** Determining a Target Body Weight 179

## CHAPTER 7

Weight Management 181

**HEALTH IMPLICATIONS OF OVERWEIGHT  
AND OBESITY** 182

**FACTORS CONTRIBUTING TO EXCESS  
BODY FAT** 183

Genetic Factors 183

Physiological Factors 183

Lifestyle Factors 184

**ADOPTING A HEALTHY LIFESTYLE FOR SUCCESSFUL  
WEIGHT MANAGEMENT** 186

Diet and Eating Habits 186

Physical Activity and Exercise 189

Thoughts and Emotions 190

Coping Strategies 190

**APPROACHES TO OVERCOMING A WEIGHT  
PROBLEM** 190

Doing It Yourself 190

Diet Books 190

Dietary Supplements and Diet Aids 193

Weight-Loss Programs 193

Prescription Drugs 194

Surgery 195

Psychological Help 196

**BODY IMAGE** 196

Severe Body Image Problems 196

Acceptance and Change 196

**EATING DISORDERS** 197

Anorexia Nervosa 198

Bulimia Nervosa 198

Binge-Eating Disorder 198

Treating Eating Disorders 198

**CREATING AN INDIVIDUAL WEIGHT-MANAGEMENT  
PLAN** 199

Assess Your Motivation and Commitment 199

Set Reasonable Goals 199

Assess Your Current Energy Balance 200

Increase Your Level of Physical Activity 200

Make Changes in Your Diet and Eating Habits 200

Put Your Plan into Action 201

*Tips for Today* 201

*Summary* 202

*For Further Exploration* 203

*Selected Bibliography* 204

**Lab 7.1** Calculating Daily Energy Needs 205

**Lab 7.2** Identifying Weight-Loss Goals and  
Ways to Meet Them 207

**Lab 7.3** Checking for Body Image Problems and  
Eating Disorders 209

## CHAPTER 8

Putting Together a Complete  
Fitness Program 211

**DEVELOPING A PERSONAL FITNESS PLAN** 212

1. Set Goals 212

2. Select Activities 212

3. Set a Target Frequency, Intensity, and Time (Duration)  
for Each Activity 215

4. Set Up a System of Mini-Goals and Rewards 217
5. Include Lifestyle Physical Activity in Your Program 217
6. Develop Tools for Monitoring Your Progress 217
7. Make a Commitment 218

## PUTTING YOUR PLAN INTO ACTION 218

## MAINTAINING YOUR PROGRAM: FIT FOR LIFE 219

### EXERCISE GUIDELINES FOR PEOPLE WITH SPECIAL HEALTH CONCERNS 220

- Arthritis 221
- Asthma 221
- Diabetes 221
- Heart Disease and Hypertension 221
- Obesity 222
- Osteoporosis 222

### EXERCISE GUIDELINES FOR LIFE STAGES 222

- Children and Adolescents 222
- Pregnant Women 223
- Older Adults 223

*Tips for Today* 223

*Summary* 223

*For Further Exploration* 224

*Selected Bibliography* 225

### SAMPLE PROGRAMS FOR POPULAR ACTIVITIES 226

- General Guidelines 226
- Walking/Jogging/Running Sample Program 226
- Bicycling Sample Program 230
- Swimming Sample Program 231
- In-Line Skating Sample Program 232

**Lab 8.1** A Personal Fitness Program Plan and Contract 235

**Lab 8.2** Getting to Know Your Fitness Facility 237

## CHAPTER 9

## Nutrition 239

### NUTRITIONAL REQUIREMENTS: COMPONENTS OF A HEALTHY DIET 240

- Proteins—The Basis of Body Structure 242
- Fats—Essential in Small Amounts 243
- Carbohydrates—An Ideal Source of Energy 247
- Dietary Fibre—A Closer Look 250
- Vitamins—Organic Micronutrients 251
- Minerals—Inorganic Micronutrients 251
- Water—A Vital Component 254
- Other Substances in Food 254

### NUTRITIONAL GUIDELINES: PLANNING YOUR DIET 256

- Dietary Reference Intakes (DRIs) 256
- Canada's Food Guide to Healthy Eating 257

- The Vegetarian Alternative 259
- Dietary Challenges for Special Population Groups 260

### NUTRITIONAL PLANNING: MAKING INFORMED CHOICES ABOUT FOOD 263

- Food Labels—A Closer Look 263
- Food Additives—Benefits and Risks 263
- Foodborne Illness—An Increasing Threat 263
- Irradiated Foods—A Technique of Biotechnology 266
- Organic Foods—Stricter Standards for a Booming Industry 266

### A PERSONAL PLAN: APPLYING NUTRITIONAL PRINCIPLES 266

- Assessing and Changing Your Diet 266
- Staying Committed to a Healthy Diet 268

*Tips for Today* 268

*Summary* 268

*For Further Exploration* 270

*Selected Bibliography* 271

*Nutrition Resources* 273

**Lab 9.1** Your Daily Diet Versus the Food Guide 277

**Lab 9.2** Dietary Analysis 281

**Lab 9.3** Informed Food Choices 283

## CHAPTER 10

## Stress 285

### WHAT IS STRESS? 286

### COMMON SOURCES OF STRESS 286

- Major Life Changes 286
- Daily Hassles 286
- University/College Stressors 286
- Job-Related Stressors 287
- Interpersonal and Social Stressors 287
- Other Stressors 287
- Physical Responses to Stressors 288
- Emotional and Behavioural Responses to Stressors 289
- The Stress Experience as a Whole 291

### STRESS AND WELLNESS 292

- The General Adaptation Syndrome 292
- Allostatic Load 292
- Psychoneuroimmunology 293
- Links Between Stress and Specific Conditions 293

### MANAGING STRESS 293

- Counterproductive Strategies for Coping with Stress 293
- Exercise 294
- Nutrition 295
- Sleep 295
- Social Support 295
- Communication 295

Spiritual Wellness 295  
Time Management 296  
Cognitive Techniques 299  
Relaxation Techniques 299  
Other Techniques 302

### **GETTING HELP 303**

Peer Counselling and Support Groups 303  
Professional Help 303  
Is It Stress or Something More Serious? 303

*Tips for Today* 304

*Summary* 304

*For Further Exploration* 305

*Selected Bibliography* 306

**Lab 10.1** Identifying Your Stress Level and Key Stressors 307

**Lab 10.2** Stress-Management Techniques 309

**Lab 10.3** Developing Spiritual Wellness 311

## **CHAPTER 11**

### **Cardiovascular Health 313**

#### **RISK FACTORS FOR CARDIOVASCULAR DISEASE 314**

Major Risk Factors That Can Be Changed 314  
Contributing Risk Factors That Can Be Changed 317  
Major Risk Factors That Can't Be Changed 318  
Possible Risk Factors Currently Being Studied 319

#### **MAJOR FORMS OF CARDIOVASCULAR DISEASE 320**

Hypertension 320  
Atherosclerosis 320  
Heart Disease and Heart Attacks 321  
Stroke 322  
Congestive Heart Failure 324

#### **PROTECTING YOURSELF AGAINST CARDIOVASCULAR DISEASE 324**

Eat Heart-Healthy 325  
Exercise Regularly 325  
Avoid Tobacco 326  
Know and Manage Your Blood Pressure 326  
Know and Manage Your Cholesterol Levels 326  
Develop Ways to Handle Stress and Anger 326  
Know Your Risk Factors 326

*Tips for Today* 326

*Summary* 326

*For Further Exploration* 327

*Selected Bibliography* 329

**Lab 11.1** Cardiovascular Health 331

## **CHAPTER 12**

### **Cancer 333**

#### **WHAT IS CANCER? 334**

Benign Versus Malignant Tumours 334  
How Cancer Spreads: Metastasis 334  
The Impact of Cancer 334  
Lung Cancer 334  
Colorectal Cancer 335  
Breast Cancer 336  
Prostate Cancer 337  
Cancers of the Female Reproductive Tract 337  
Skin Cancer 338  
Oral Cancer 339  
Testicular Cancer 339  
Other Cancers 339

#### **THE CAUSES OF CANCER 341**

The Role of DNA 341  
Dietary Factors 342  
Inactivity and Obesity 343  
Carcinogens in the Environment 343

#### **PREVENTING CANCER 344**

Coping with Cancer 345

*Tips for Today* 346

*Summary* 346

*For Further Exploration* 346

*Selected Bibliography* 348

**Lab 12.1** Cancer Prevention 349

## **CHAPTER 13**

### **Substance Use and Abuse 351**

#### **ADDICTIVE BEHAVIOUR 352**

What Is Addiction? 352  
The Development of Addiction 353  
Examples of Addictive Behaviours 353

#### **PSYCHOACTIVE DRUGS 354**

Drug Use, Abuse, and Dependence 354  
Who Uses (and Abuses) Drugs? 354  
Treatment for Drug Abuse 356  
Preventing Drug Abuse 356  
The Role of Drugs in Your Life 357

#### **ALCOHOL 358**

Chemistry and Metabolism 358  
Immediate Effects of Alcohol 358  
Drinking and Driving 360  
Effects of Chronic Use of Alcohol 361  
Alcohol Abuse 361  
Binge Drinking 362

Alcoholism 362  
Drinking and Responsibility 362

### **TOBACCO 362**

Nicotine Addiction 362  
Health Hazards of Cigarette Smoking 363  
Other Forms of Tobacco Use 365  
Environmental Tobacco Smoke 366  
Smoking and Pregnancy 366  
Giving Up Tobacco 367

*Tips for Today* 369

*Summary* 369

*For Further Exploration* 370

*Selected Bibliography* 371

**Lab 13.1** Is Alcohol a Problem in Your Life? 373

**Lab 13.2** For Smokers Only: Why Do You Smoke? 375

## **CHAPTER 14**

### **Sexually Transmitted Infections 377**

#### **THE MAJOR STIs 378**

HIV Infection and AIDS 378  
Chlamydia 383  
Gonorrhea 384  
Pelvic Inflammatory Disease 384  
Genital Warts 385  
Genital Herpes 387  
Hepatitis B 389  
Syphilis 390  
Other STIs 390

#### **WHAT YOU CAN DO 390**

Education 390  
Diagnosis and Treatment 391  
Prevention 391

*Tips for Today* 391

*Summary* 391

*For Further Exploration* 393

*Selected Bibliography* 394

**Lab 14.1** Behaviours and Attitudes Related to STIs 395

## **CHAPTER 15**

### **Wellness for Life 397**

#### **DEVELOPING SUCCESSFUL INTERPERSONAL RELATIONSHIPS 398**

Forming Relationships 398  
Communication 399  
Marriage 401  
Successful Relationships, Successful Families 402

### **MEETING THE CHALLENGES OF AGING 402**

What Happens as You Age? 403  
Life-Enhancing Measures 403

#### **USING THE HEALTH CARE SYSTEM INTELLIGENTLY 404**

Managing Medical Problems 405  
Getting the Most Out of Medical Care 406

#### **ENVIRONMENTAL HEALTH 408**

Population Growth 408  
Pollution 408  
What Can You Do? 409

#### **FIT AND WELL FOR LIFE 409**

*Tips for Today* 410

*Summary* 410

*For Further Exploration* 411

*Selected Bibliography* 411

**Lab 15.1** Looking to the Future 413

**APPENDIX A** Nutritional Content of Common Foods A-1

**APPENDIX B** Nutritional Content of Popular Items from Fast-Food Restaurants B-1

**APPENDIX C** Monitoring Your Progress C-1

**BEHAVIOUR CHANGE WORKBOOK W-1**

**Photo Credits P-1**

**Index I-1**

## BOXES

### TAKE CHARGE

- Tips for Moving Forward in the Cycle of Behaviour Change 13
- Becoming More Active 27
- Exercise in Hot Weather 71
- Rehabilitation Following a Minor Athletic Injury 73
- Safe Weight Training 94
- Safe Stretching 130
- Stretches to Avoid 136
- Good Posture and Low-Back Health 139
- Lifestyle Strategies for Successful Weight Management 191
- If Someone You Know Has an Eating Disorder... 200
- Getting Your Fitness Program Back on Track 219
- Setting Intake Goals for Protein, Fat, and Carbohydrate 246
- Choosing More Whole-Grain Foods 248
- Eating for Healthy Bones 255
- Judging Serving Sizes 258
- Reducing the Fat in Your Diet 259
- Eating Strategies for University/College Students 262
- Overcoming Insomnia 294
- Dealing with Anger 297
- Realistic Self-Talk 300
- Breathing for Relaxation 302
- Heart Attack, Stroke, and Cardiac Arrest Warning Signs 323
- How to Examine Your Breasts 336
- Testicle Self-Examination 341
- Eating More Fruits and Vegetables 344
- Dealing with an Alcohol Emergency 360
- Drinking Behaviour and Responsibility 363
- Preventing HIV Infection and Other STIs 385
- Male Condoms 388
- Guidelines for Effective Communication 401
- Strategies for Enhancing Support in Relationships 402
- What You Can Do for the Environment 409

### CRITICAL CONSUMER

- Evaluating Sources of Health Information 10
- Choosing a Fitness Centre 41
- Evaluating Home Exercise Equipment 66
- Natural Health Products: A Consumer Dilemma 97
- Evaluating Fat and Sugar Substitutes 188
- Over-the-Counter Diet Pills and Diet Aids 195
- Choosing Exercise Footwear 216
- Using Nutrition Labels 264
- Choosing and Evaluating Mental Health Professionals 304
- Evaluating Health News 328
- Safely Spending Time in the Sun 340
- Smoking Cessation Products 368
- Getting an HIV Test 383
- Avoiding Health Fraud and Quackery 407

### WELLNESS CONNECTION

- Signs of Wellness 18
- Exercise and the Mind 60
- Expressive Writing and Chronic Conditions 140
- Exercise, Body Image, and Self-Esteem 164
- Borderline Disordered Eating 199

- Sleep 220
- Eating Habits and Total Wellness 241
- Building Social Support 296
- Paths to Spiritual Wellness 298
- Anger, Hostility, and Heart Disease 318
- Stress and Genital Herpes 389
- Intimate Relationships Are Good for Your Health 399
- Help Yourself by Helping Others 404

### DIMENSIONS OF DIVERSITY

- Wellness Issues for Diverse Populations 8
- Fitness and Disability 31
- Benefits of Exercise for Older Adults 58
- Gender Differences in Muscular Strength 87
- The Female Athlete Triad 165
- Gender, Ethnicity, and Body Image 197
- Ethnic Foods 267
- Stress-Management Techniques from Around the World 301
- Gender and CVD 319
- Special Risks for Women Who Smoke 365
- HIV Infection Around the World 381

### IN FOCUS

- Lifestyle Matters for Young Adults 11
- Is Exercise Safe? 34
- Exercise Machines Versus Free Weights 90
- Can You Be Fit and Fat? 161
- Diabetes 163
- Diet Wars 192
- Glycemic Index and Glycemic Load 249
- Club Drugs 357
- Benefits of Quitting Smoking 367

## WELLNESS BEHAVIOUR CHANGE WORKBOOK ACTIVITIES

### PART 1 DEVELOPING A PLAN FOR BEHAVIOUR CHANGE AND COMPLETING A CONTRACT

1. Choosing a Target Behaviour W-1
2. Gathering Information About Your Target Behaviour W-2
3. Monitoring Your Current Patterns of Behaviour W-2
4. Setting Goals W-4
5. Examining Your Attitudes About Your Target Behaviour W-4
6. Choosing Rewards W-5
7. Breaking Behaviour Chains W-5
8. Completing a Contract for Behaviour Change W-8

### PART 2 OVERCOMING OBSTACLES TO BEHAVIOUR CHANGE

9. Building Motivation and Commitment W-10
10. Managing Your Time Successfully W-11
11. Developing Realistic Self-Talk W-12
12. Involving the People Around You W-13
13. Dealing With Feelings W-14
14. Overcoming Peer Pressure: Communicating Assertively W-15
15. Maintaining Your Program Over Time W-16

## LABORATORY ACTIVITIES

- Lab 1.1 Your Wellness Profile 21
- Lab 1.2 Lifestyle Evaluation 23
- Lab 2.1 Safety of Exercise Participation 43
- Lab 2.2 Your Physical Activity Profile 45
- Lab 2.3 Overcoming Barriers to Being Active 47
- Lab 3.1 Assessing Your Current Level of Cardiorespiratory Endurance 77
- Lab 3.2 Developing an Exercise Program for Cardiorespiratory Endurance 81
- Lab 4.1 Assessing Your Current Level of Muscular Strength 115
- Lab 4.2 Assessing Your Current Level of Muscular Endurance 119
- Lab 4.3 Designing and Monitoring a Strength Training Program 123
- Lab 5.1 Assessing Your Current Level of Flexibility 147
- Lab 5.2 Creating a Personalized Program for Developing Flexibility 153
- Lab 5.3 Assessing Muscular Endurance for Low-Back Health 155
- Lab 5.4 Posture Evaluation 157
- Lab 6.1 Assessing Body Mass Index and Body Composition 173
- Lab 6.2 Determining a Target Body Weight 179
- Lab 7.1 Calculating Daily Energy Needs 205
- Lab 7.2 Identifying Weight-Loss Goals and Ways to Meet Them 207
- Lab 7.3 Checking for Body Image Problems and Eating Disorders 209
- Lab 8.1 A Personal Fitness Program Plan and Contract 235
- Lab 8.2 Getting to Know Your Fitness Facility 237
- Lab 9.1 Your Daily Diet Versus the Food Guide 277
- Lab 9.2 Dietary Analysis 281
- Lab 9.3 Informed Food Choices 283
- Lab 10.1 Identifying Your Stress Level and Key Stressors 307
- Lab 10.2 Stress-Management Techniques 309
- Lab 10.3 Developing Spiritual Wellness 311
- Lab 11.1 Cardiovascular Health 331
- Lab 12.1 Cancer Prevention 349
- Lab 13.1 Is Alcohol a Problem in Your Life? 373
- Lab 13.2 For Smokers Only: Why Do You Smoke? 375
- Lab 14.1 Behaviours and Attitudes Related to STIs 395
- Lab 15.1 Looking to the Future 413
