

2

Materials

Chapter Outline

- 2-1** Material Strength and Stiffness **32**
- 2-2** The Statistical Significance of Material Properties **36**
- 2-3** Strength and Cold Work **38**
- 2-4** Hardness **41**
- 2-5** Impact Properties **42**
- 2-6** Temperature Effects **43**
- 2-7** Numbering Systems **45**
- 2-8** Sand Casting **46**
- 2-9** Shell Molding **47**
- 2-10** Investment Casting **47**
- 2-11** Powder-Metallurgy Process **47**
- 2-12** Hot-Working Processes **47**
- 2-13** Cold-Working Processes **48**
- 2-14** The Heat Treatment of Steel **49**
- 2-15** Alloy Steels **52**
- 2-16** Corrosion-Resistant Steels **53**
- 2-17** Casting Materials **54**
- 2-18** Nonferrous Metals **55**
- 2-19** Plastics **58**
- 2-20** Composite Materials **60**
- 2-21** Materials Selection **61**
