Preface xvi

1 Shaping Your Health 1

The Millennial Generation 2

Developmental Tasks of Early Adulthood 2

- Forming an Initial Adult Identity 2
- Establishing Independence 3
- Assuming Responsibility 3
- Broadening Social Skills 3
- Nurturing Intimacy 3
- Obtaining Entry-Level Employment and Developing Parenting Skills 3

Developmental Tasks of Middle and Older Adulthood 4

- Midlife Developmental Tasks 4
- Developmental Tasks of Older Adulthood 5

Roles and Their Reciprocal Relationship to Developmental Tasks 6

Today's College Students 7

Sources of Our Traditional Definitions of Health 7

- Episodic Health Care 7
- Preventive or Prospective Medicine 8
- Health Promotion—Personal and Collective Empowerment 10
- Wellness 10
- A Health Care System or a Medical Care System? 12

Federal Programs to Improve the Health of People in the United States 12

Improving Health Through Planned Behavior Change 12

- Why Behavior Change Is Often Difficult 12
- Transtheoretical Model of Health Behavior Change 13

Today's Health Concerns 14

Health: More Than the Absence of Illness 14

The Multiple Dimensions of Health 14

- Physical Dimension 14
- Emotional Dimension 15
- Social Dimension 15
- Intellectual Dimension 15
- Spiritual Dimension 16
- Occupational Dimension 16
- Environmental Dimension 17

A New Definition of Health 17

- The Role of Health 17
- The Composition of Health 17
- Our Definition of Health 17

Taking Charge of Your Health 18

Summary 18

Review Questions 19

Source Notes 19

COMPREHENSIVE HEALTH ASSESSMENT 21

Part One: The Mind 31

2 Achieving Psychological Health 32

Defining Psychological Health 32

Characteristics of Psychologically Healthy People 33

- Self-Esteem 34
- Emotional Intelligence 34
- Personality 35
- The Normal Range of Emotions 35
- Maslow's Hierarchy of Needs 35
- Creative Expression 36
- Spiritual Health 37

Keys to Psychological Health	38
Cultivating a Sense of Humor	38
Developing Communication Skills	38
Taking an Optimistic Approach to Life	40
Taking a Proactive Approach to Life	42
Psychological Disorders	42
Mood Disorders	42
Anxiety Disorders	49
Attention Deficit Hyperactivity Disorder (ADHD)	51
Schizophrenia	52
Health Providers Involved in the Treatment of Psychological Disorders	53
Psychiatrists	54
Psychologists	54
Counselors	54
Social Workers	54
Approaches in Treating Psychological Disorders	54
Dynamic Therapy	55
Humanistic Therapy	55
Behavior Therapy	55
Cognitive-Behavioral Therapy	55
Solution-Focused Therapy	55
Couples and Family Therapy	56
Group Therapy	56
Psychological Health: A Final Thought	56
Taking Charge of Your Health	56
Summary	56
Review Questions	57
Source Notes	57
PERSONAL ASSESSMENT: WHAT IS YOUR EXPLANATORY STYLE?	59
3 Managing Stress	60
What Is Stress?	60
How We Respond to Stress	61
Fight or Flight Response	61
Chronic Stress	62
The Three Stages of Stress	62
Alarm Stage	63
Resistance Stage	63
Exhaustion Stage	63
The Effects of Stress	65
The Physical Toll of Stress	65
The Immune System and Stress	65
Cardiovascular Disease and Stress	66
Benefits of Stress	67
The Sources of Stress	67
Student Stressors	68
Interpersonal Stressors	68
Academic Stressors	69

Internal Stressors	71
Job Stressors	72
Environmental Stressors	72

Approaches to Stress Management	73
Physical Aspects of Stress Management	73
Social Aspects of Stress Management	75
Environmental Aspects of Stress Management	75
Psychological Aspects of Stress Management	76
Cognitive Aspects of Stress Management	78

A Realistic Perspective on Stress and Life 81

Taking Charge of Your Health	82

Review Questions	82
------------------	----

Source Notes	83
--------------	----

PERSONAL ASSESSMENT: STUDENT STRESS CHECKLIST 84

PERSONAL ASSESSMENT: AM I A PERFECTIONIST? 86

Part Two: The Body 87

4 Becoming Physically Fit 88

Five Components of Physical Fitness 89

Cardiorespiratory Endurance	90
Muscular Strength and Muscular Endurance	91
Flexibility	92
Body Composition	93

Developing a Personalized Fitness Program 93

Principles of Training	93
Cardiorespiratory Endurance	93
Muscular Fitness	95
Flexibility Training	97
Training Considerations for Body Composition	97
Overtraining	98
The Workout Routine	99

Exercise over the Life Span 99

Children's Physical Activity	99
Exercise and Aging	100
Exercise for "30-Somethings"	100
Exercise for Older Adults	100

Special Health Concerns 102

Low-Back Pain	102
Female Athlete Triad	102
Pregnancy	102
Osteoporosis	103
Osteoarthritis	104

Fitness Questions and Answers 104

Should I See My Doctor Before I Get Started?	104
What Causes a "Runner's High"?	104
What Are Low-Impact Aerobic Activities?	104

- What Is the Most Effective Way to Replace Fluids During Exercise? 105
- What Clothing Should I Wear for Exercise? 105
- Where Can I Find Out About Proper Equipment? 105
- How Worthwhile Are Commercial Health and Fitness Clubs? 106
- What Are Steroids, and Why Do Some Athletes Use Them? 106

Exercise Injuries 107

Taking Charge of Your Health 109

Summary 110

Review Questions 111

Source Notes 111

PERSONAL ASSESSMENT: WHAT IS YOUR LEVEL OF FITNESS? 112

5 Understanding Nutrition and Your Diet 114

Types and Sources of Nutrients 115

Carbohydrates 115

Fats 116

Proteins 119

Vitamins 120

Phytochemicals 122

Minerals 124

Water and Fluids 124

Fiber 124

The Absorption of Nutrients 125

Planning a Healthy Diet 125

The USDA Food Guide: MyPyramid 126

Dietary Guidelines for Americans 2005 130

Additional Eating Plans and Recommendations 133

Vegetarian Diets 135

Nutrition and the Older Adult 136

Special Nutrition Concerns: Challenges and Tools for Consumers 136

Food Labels 136

Fast Foods 137

Functional Foods 140

Dietary Supplements 141

Food Allergies 142

Food Safety 143

Preventing Foodborne Illness 143

Food Irradiation 144

Safe Farming Techniques 145

Organic Foods 146

Food Additives 146

Genetically Modified Foods 146

Taking Charge of Your Health 147

Summary 147

Review Questions 147

Source Notes 148

PERSONAL ASSESSMENT: RATE YOUR PLATE 149

PERSONAL ASSESSMENT: ARE YOU FEEDING YOUR FEELINGS? 150

6 Maintaining a Healthy Weight 151

Body Weight and Wellness 151

Defining Overweight and Obesity 152

Obesity and Disease 152

Sociocultural Standards for Weight 152

Body Image and Self-Concept 153

Measuring and Assessing Weight and Body Composition 153

Body Mass Index 153

Height/Weight Tables 155

Waist and Hip Measurement 156

Appearance 156

Home Scale 157

Body Fat Measurement 157

Causes of Obesity 158

Calorie Balance: Energy Intake Versus Energy Output 158

Genetic Factors 160

Physiological and Hormonal Factors 161

Metabolic Factors 162

Family, Social, and Cultural Factors 163

Environmental Factors 164

Psychological Factors 164

Weight-Management Strategies 165

Lifestyle Approaches for Lifetime Healthy Weight Management 165

Specific Dietary Approaches 168

Weight Loss Drugs 170

Surgical Interventions 172

Approaches for Weight Gain 174

- Eating Disorders** 175
 - Anorexia Nervosa 176
 - Bulimia Nervosa 178
 - Binge Eating Disorder 179
 - Chewing and Spitting Out Food Syndrome 179
 - Night Eating Syndrome 179
 - Body Dysmorphic Disorder 179
 - Bigorexia 180
 - Treating Eating Disorders 180

A Final Thought About Health and Weight Management 180

Taking Charge of Your Health 180

Summary 181

Review Questions 181

Source Notes 181

PERSONAL ASSESSMENT: DO YOU EAT MINDLESSLY OR MINDFULLY? 183

PERSONAL ASSESSMENT: BODY LOVE OR BODY HATE? 184

Part Three: Preventing Drug Abuse and Dependence 185

7 Making Decisions About Drug Use 186

Addictive Behavior 187

The Process of Addiction 187

Codependence 188

Basic Drug Terminology and Concepts 188

Actions of Drugs on the Central Nervous System 188

Routes of Administration 189

Drug Misuse and Abuse 189

Dependence 190

Dynamics of Drug Abuse 192

Individual Factors 192

Environmental Factors 192

Societal Factors 192

Drug Classifications 194

Stimulants 194

Depressants 198

Hallucinogens 199

Cannabis 201

Narcotics 202

Inhalants 203

Combination Drug Effects 203

Society's Response to Drug Use 204

Prevention: The Best Solution 204

Drug Testing 206

Treatment and Intervention 206

Taking Charge of Your Health 208

Summary 208

Review Questions 208

Source Notes 209

PERSONAL ASSESSMENT: RISK ASSESSMENT FOR MARIJUANA DEPENDENCE OR ABUSE 210

PERSONAL ASSESSMENT: GETTING A DRUG-FREE HIGH 211

8 Taking Control of Alcohol Use 212

Alcohol and Its Immediate Effects on the Body 212

The Nature of Alcoholic Beverages 213

Physiological Effects of Alcohol Consumption 213

Alcohol Poisoning 215

Alcohol's Interaction with Other Drugs 216

Patterns of Alcohol Use 216

Reasons People Choose to Drink 216

How Much Do People Drink? 216

Who Drinks? 217

College Drinking 218

Alcohol and Wellness 219

Alcohol-Related Medical Problems 219

Alcohol-Related Psychological Problems 221

Alcohol-Related Social Problems 222

Alcohol-Related Legal Problems 224

Alcohol-Related Family and Relationship Problems 224

Responsible Use of Alcohol 226

Responsible Drinking 226

Hosting a Party Responsibly 226

Organizations That Support Responsible Drinking 227

Alcohol Advertising 228

Alcohol Prevention Messages 228

Treatment for Alcohol Problems 229

Helping the Alcoholic: Rehabilitation and Recovery 230

Medical Treatment for Alcoholism 231

Taking Charge of Your Health 231

Summary 232

Review Questions 232

Source Notes 232

PERSONAL ASSESSMENT: HOW DO YOU USE ALCOHOLIC BEVERAGES? 234

PERSONAL ASSESSMENT: DOES SOMEONE'S DRINKING TROUBLE YOU? 235

9 Rejecting Tobacco Use 236

- Tobacco Use in American Society** 236
 - Cigarette Smoking Among College Students 237
 - Demographic Trends in Smoking 237
 - Marketing of Tobacco Products 238

Tobacco Use and the Development of Dependence 240

- Theories of Nicotine Addiction 242
- Acute Effects of Nicotine on Nervous System Function 243
- Non-Nervous-System Acute Effects of Nicotine 244
- Psychosocial Factors Related to Dependence 244
- Preventing Teen Smoking 245
- Early Childhood Intervention 245

Tobacco Smoke: The Source of Physiologically Active Compounds 246

- Particulate Phase 246
- Gaseous Phase 247

Illness, Premature Death, and Tobacco Use 248

- Cardiovascular Disease 248
- Cancer 250
- Chronic Obstructive Lung Disease 252
- Smoking and Body Weight 252
- Additional Health Concerns 252
- Combining Tobacco and Alcohol Use 253

Risks from Specific Tobacco Products 253

- Nonmanufactured Forms of Cigarettes 253
- Mentholated Cigarettes 253
- Pipe and Cigar Smoking 254
- Smokeless Tobacco Use 255
- New Product Development 255
- Nontobacco Sources of Nicotine 256

Smoking and Reproduction 257

- Infertility 257
- Problem Pregnancy 257
- Breast-Feeding 258
- Neonatal Health Problems 258

Involuntary (Passive) Smoking 258

- Health Risks of Passive Smoking 258

The Cost of Smoking 259

Stopping What You Started 259

- Smoking Cessation Programs 261
- Medically Managed Smoking Cessation 262
- Prescription Medications Based on Nicotine Receptor Inhibitors 264
- Anti-Smoking Vaccines 264

Tobacco Use: A Question of Rights 265

- Taking Charge of Your Health 265
- Summary 265

Review Questions 266

Source Notes 266

PERSONAL ASSESSMENT: A SIMPLE DEPENDENCY TEST: YOUR RELATIONSHIP WITH CIGARETTES 268

Part Four: Preventing Diseases 269

10 Enhancing Your Cardiovascular Health 270

Normal Cardiovascular Function 271

- The Vascular System 271
- The Heart 272
- Blood 272

Cardiovascular Disease Risk Factors 273

- Risk Factors That Cannot Be Changed 273
- Risk Factors That Can Be Changed 273
- Metabolic Syndrome 277
- Another Risk Factor That Contributes to Heart Disease: Individual Response to Stress 277

Forms of Cardiovascular Disease 278

- Coronary Heart Disease 279
- Hypertension 284
- Stroke 286
- Other Cardiovascular Diseases 288

Preventing Cardiovascular Disease 290

Taking Charge of Your Health 290

Summary 290

Review Questions 291

Source Notes 291

PERSONAL ASSESSMENT: WHAT IS YOUR RISK FOR HEART DISEASE? 292

11 Living with Cancer 294

Cancer: A Problem of Cell Regulation 296

- Cell Regulation 296
- Oncogene Formation 296
- The Cancerous Cell 297
- Benign Tumors 298

Types of Cancer 298

Cancer at Selected Sites in the Body 298

- Skin Cancer 299
- Lung Cancer 303
- Colorectal Cancer 306
- Breast Cancer 307
- Prostate Cancer 311
- Testicular Cancer 313
- Cervical Cancer 313
- Uterine (Endometrial) Cancer 315
- Vaginal Cancer 316
- Ovarian Cancer 316
- Pancreatic Cancer 317
- Lymphatic Cancer 318

The Future of Cancer Prevention, Diagnosis, and Treatment 319

- Prevention Through Risk Reduction 319
- Cancer and a Sense of Well-Being 320

Taking Charge of Your Health 321

Summary 321

Review Questions 321

Source Notes 322

PERSONAL ASSESSMENT: ARE YOU AT RISK FOR SKIN, BREAST, OR CERVICAL CANCER? 323

12 Managing Chronic Conditions 325

Chronic Disease Prevention 326

Genetic/Inherited Conditions 327

- Abnormal Number of Sex Chromosomes 327
- Inherited Genetic Mutations 328
- Sex-Chromosome-Linked Inherited Genetic Mutations 329

Congenital Abnormalities 330

- Cleft Palate and Cleft Lip 330
- Patent Foramen Ovale (PFO) 331
- Scoliosis 331

Metabolic Disorders 332

- Diabetes Mellitus 332
- Hypoglycemia 336

Autoimmune/Hypersensitivity Disorders 336

- Fibromyalgia 336
- Asthma 337

- Irritable Bowel Syndrome (IBS) and Inflammatory Bowel Disease (IBD) 339
- Systemic Lupus Erythematosus (SLE) 340
- Multiple Sclerosis (MS) 341

Degenerative Diseases 342

- Parkinson's Disease 343
- Alzheimer's Disease (AD) 345

Chronic Conditions and a Sense of Well-Being 347

Taking Charge of Your Health 347

Summary 347

Review Questions 348

Source Notes 348

PERSONAL ASSESSMENT: ARE YOU MANAGING YOUR ASTHMA EFFECTIVELY? 350

13 Preventing Infectious Diseases 351

Infectious Disease Transmission 352

- Pathogens 352
- Chain of Infection 352
- Stages of Infection 354

Body Defenses: Mechanical and Cellular-Chemical Immune Systems 355

- Divisions of the Immune System 356
- The Immune Response 357
- Immunizations 358

Causes and Management of Selected Infectious Diseases 360

- Nosocomial Infections 360
- The Common Cold 361
- Seasonal Influenza 363
- Avian (Bird) Influenza and Novel H1N1 (Swine) Influenza 364
- Tuberculosis 364
- Pneumonia 365
- Mononucleosis 365

Chronic Fatigue Syndrome 366
Bacterial Meningitis 366
Lyme Disease 367
Hantavirus Pulmonary Syndrome 368
West Nile Virus 368
Tampon-Related Toxic Shock Syndrome 369
Hepatitis 369
AIDS 370

Sexually Transmitted Diseases 376
Chlamydia (Nonspecific Urethritis) 376
Human Papillomavirus 377
Gonorrhea 378
Herpes Simplex 378
Syphilis 380
Pubic Lice 380
Vaginal Infections 381
Cystitis and Urethritis 381
Sexually Transmitted Diseases, Health,
Role Fulfillment, and a Sense of
Well-Being 382

Taking Charge of Your Health 382

Summary 382

Review Questions 383

Source Notes 383

**PERSONAL ASSESSMENT: WHAT IS YOUR RISK
OF CONTRACTING A SEXUALLY TRANSMITTED
DISEASE? 385**

Part Five: Sexuality and Reproduction 386

14 Exploring the Origins of Sexuality 387

Biological Bases of Human Sexuality 387
Genetic Basis 388
Gonadal Basis 388
Structural Development 388
Biological Sexuality and the Childhood Years 388
Puberty 388

Psychosocial Bases of Human Sexuality 388
Gender Identity 389
Gender Preference 389
Gender Adoption 389
Initial Adult Gender Identification 390

Androgyny: Sharing the Pluses 390

Reproductive Systems 391
Male Reproductive System 391
Female Reproductive System 394

Summary 401

Review Questions 401

Source Notes 402

**PERSONAL ASSESSMENT: SEXUAL ATTITUDES:
A MATTER OF FEELINGS 403**

15 Understanding Sexual Behavior and Relationships 404

The Human Sexual Response Pattern 404

Do the Sexual Responses of Men and Women Have
a Predictable Pattern? 405

Is the Sexual Response Pattern Stimuli-Specific? 406

What Differences Occur in the Sexual Response
Pattern? 406

What Are the Basic Physiological Mechanisms
Underlying the Sexual Response Pattern? 407

What Role Is Played by Specific Organs and
Organ Systems in the Sexual Response
Pattern? 407

Sexual Orientation 408

Heterosexuality 408

Homosexuality 409

Bisexuality 410

Gender Identity Issues 410

Transsexualism 410

Transgenderism 411

Transvestism 412

Patterns of Sexual Behavior 412

Celibacy 412

Masturbation 412

Fantasy and Erotic Dreams 412

Shared Touching 413

Genital Contact 413

Oral-Genital Stimulation 413

Intercourse 413

Anal Sexual Activity 414

Secondary Virginity 414

Sexuality and Aging 414

Bonds Between People 415

Friendship 415

Dating 415

Online Dating 416

Intimacy 417

Love 417

Qualities of Healthy Relationships 417

Communication in Relationships 418

Recognizing Unhealthy Relationships 418

Ending a Relationship 419

Relationships and Lifestyles 419

Marriage 419

Gay and Lesbian Partnerships 420

Same-Sex Marriage 420

Divorce 421

Singlehood	421
Cohabitation	422
Single Parenthood	422

Summary	423
Review Questions	423
Source Notes	423

PERSONAL ASSESSMENT: HOW COMPATIBLE ARE YOU? 424

16 Managing Your Fertility 425

Basic Concepts of Fertility Control	425
Birth Control Versus Contraception	426
Reasons for Choosing to Use Birth Control	426
Theoretical Effectiveness Versus Use Effectiveness	427
Selecting Your Contraceptive Method	428
Behavioral Contraceptive Methods	429
Abstinence	429
Withdrawal	430
Periodic Abstinence	430
Over-the-Counter Contraceptive Methods	432
Spermicides	432
Condoms	433
Contraceptive Sponge	434
Prescription Contraceptive Methods	435
Diaphragm	435
Lea's Shield and FemCap	436
Intrauterine Device (IUD)	436
Oral Contraceptives	437
Injectable Contraceptive	438
Contraceptive Implant	439
Contraceptive Ring	439
Contraceptive Patch	439
Emergency Contraception	440
Permanent Contraceptive Methods	440
Male Sterilization	441
Female Sterilization	441
Abortion	442
First-Trimester Abortion Procedures	442
Second-Trimester Abortion Procedures	443
Third-Trimester Abortion Procedures	444
A Final Word	444
Taking Charge of Your Health	444
Summary	445
Review Questions	445
Source Notes	445

PERSONAL ASSESSMENT: WHICH BIRTH CONTROL METHOD IS BEST FOR YOU? 446

17 Becoming a Parent 447

Parenting Issues for Couples	447
Deciding to Become Parents	448
Becoming a Parent Through a Stepfamily	449
Parenting Across Cultures	449
Pregnancy: An Extension of the Partnership	450
Physiological Obstacles and Aids to Fertilization	450
Signs of Pregnancy	451
Agents That Can Damage a Fetus	452
Intrauterine Development	452
Childbirth: The Labor of Delivery	454
Stage One: Effacement and Dilation of the Cervix	454
Stage Two: Delivery of the Fetus	455
Stage Three: Delivery of the Placenta	456
Cesarean Deliveries	457
Problems in Fetal Development and Pregnancy	457
Genetic and Prenatal Counseling	457
Testing for Fetal Abnormalities	458
Infertility	459
Causes of Infertility	459
Preventing Infertility	460
Enhancing a Couple's Fertility	460
Treatments for Infertility	460
Options for Infertile Couples	461
What About Human Cloning?	462
Cloning Techniques	462
Reproductive Cloning	462
Therapeutic Cloning	463
Taking Charge of Your Health	463
Summary	463
Review Questions	464
Source Notes	464

PERSONAL ASSESSMENT: HOW DO YOU FEEL ABOUT PARENTING? 465

Part Six: Consumer and Safety Issues 466

18 Becoming an Informed Health Care Consumer 467

Health Information 468

The Informed Consumer 468

Sources of Information 468

Health Care Providers 471

Why We Consult Health Care Providers 472

Physicians and Their Training 474

Communication Between Patients and Their Health Care Providers 475

Complementary, Alternative, and Integrative Care Practitioners 475

Restricted-Practice Health Care Providers 478
