

Reading Tip

Reread your summary to make sure you didn't change the author's original meaning or ideas.

Target Your Reading

Use this to focus on the main ideas as you read the chapter.

- 1 Before you read** the chapter, respond to the statements below on your worksheet or on a numbered sheet of paper.
 - Write an **A** if you **agree** with the statement.
 - Write a **D** if you **disagree** with the statement.
- 2 After you read** the chapter, look back to this page to see if you've changed your mind about any of the statements.
 - If any of your answers changed, explain why.
 - Change any false statements into true statements.
 - Use your revised statements as a study guide.

Before You Read A or D	Statement	After You Read A or D
	1 The innermost layer of Earth is the liquid core.	
	2 Earth's asthenosphere is broken into plates that move around on the plasticlike lithosphere.	
	3 Antarctica was once near the equator, and North America was once connected to Africa.	
	4 The places where the edges of different plates meet are called plate boundaries.	
	5 Faults are large fractures in rocks along which movement has occurred.	
	6 Continental crust is denser than the oceanic crust.	
	7 Folded mountains are formed by the folding of rock layers caused by tension forces.	
	8 Volcanic mountains can form on the ocean floor.	
	9 Earth's crust is thinner under mountains than it is elsewhere.
