Key Word Cluster
Teacher Instructions

Purpose

- To review previously learned material.
- To visually map associated key words that belong to a topic.
- To develop self-study skills.

Teacher Instructions

1. Ask students to brainstorm a short list of associated key words for the topic you have just completed teaching or are reviewing.

    Consider breaking the class up into groups of 3 students to brainstorm for 3-4 minutes. Ask them to record all of their key words on one separate sheet of paper, reserving the worksheet for the class discussion.

2. Regroup as a class to share key words. Ask students to briefly explain the relationship of the key word to the topic. Have students use the worksheet to fill in the accurate key words with short prompts that will help them job their memory.

Key Word Cluster

Directions: In each box, write one key word that is associated with the assigned topic.

Topic:
_____
